Note: For purposes of mapping at this scale, the treatment areas have wide borders to make them visible. Actual treatment areas are restricted to where invasive plants are growing.

- Potential Treatment Areas
- Noxious Weeds
- Malheur National Forest Boundary

This product is reproduced from information prepared by the USDA, Forest Service or from other suppliers. The Forest Service cannot assure the reliability or suitability of this information for a particular purpose. The data and product accuracy may vary due to compilation from various sources, including modeling and interpretation, and may not meet National Map Accuracy Standards. This information may be updated, corrected or otherwise modified without notification. The USDA is an equal opportunity provider and employer.

The related graphics are not intended to be used as geospatial data, but rather as an aid in the acquisition of relevant geospatial data. It is strongly recommended that geospatial data is acquired directly from a Forest Service server, and not indirectly through other sources, which may have changed the data in some way.
