

**U.S. DEPARTMENT OF AGRICULTURE
FOREST SERVICE
AMENDMENT
FOR**

SPECIAL-USE AUTHORIZATION

Amendment#: 2

This amendment is attached to and made a part of the GWP433201T special use authorization for site survey and testing issued to **ATLANTIC COAST PIPELINE, LLC** on 03/25/2015 which is hereby amended as follows:

Expand the survey area as shown on the attached maps (Appendix A) in order to evaluate a Horizontal Directional Drill (HDD) route alternative to avoid habitat for the Cow Knob salamander. The currently authorized survey corridor will be expanded by 1,000 feet either side of centerline between mile posts 107 and 114, thus making the authorized study corridor 4000 ft. wide in total between mile posts 107 and 114. Survey methods will remain the same as those previously authorized with the following exception: ACP will conduct geotechnical test borings in representative areas at the approximate locations of the HDD path.

This Amendment is accepted subject to the conditions set forth herein, and to conditions attached hereto and made a part of this Amendment as Appendix A.
