

## DeBunk Thin Reoffer NARRATIVE

### Description of Sale Area

This sale consists of 3 cutting units within 3 payment units totaling 7 acres and will be sold as a scaled sale (2400-6). There is an estimated 323ccf (or 168 mbf) in this sale.

### General Location

This sale is approximately 20 miles southeast of Florence, Oregon along Forest Service Road 2480 and is in the Lower Siuslaw watershed. The sale is located on the Central Coast Ranger District in township 19 south, range 10 west, section 17.

### Routes of Access

Sale is appraised to Noti, Oregon via Highways 126, county roads 5036 and National Forest System roads 4800, 4830 and 2480.

### Relation to Other Sales

Popo Roadside Salvage share the same haul route.

### Marking

Subdivision boundaries are flagged with yellow ribbon and tagged with yellow boundary tags. Boundary trees are marked with orange tracer paint. Douglas-fir is the only designated cut species and is Leave Tree Marked with orange tracer paint marks above and below stump height. Orange painted Douglas-fir and all other species will not be cut.

### Logging

This sale is appraised for skyline yarding. Elevated tailholds may be needed to meet yarding objectives. Directional felling is required. Full suspension is required when yarding across streamcourses. Unit 1 consists of already felled timber within the subdivision boundary. Unit 2 consists of standing timber to be commercially thinned. Unit 3 consists of previously yarded and decked volume along the existing temporary spur and decked on existing log landing

### Roads and Other Developments

Temporary roads and landings are already constructed. Rock will be needed for temporary roads at the approach to all season system roads. Temporary roads and landings will need 250 cubic yards of rock.

### Road Maintenance

Purchaser will be responsible for prehaul, routine, seasonal, and post haul maintenance on system roads. A co-op deposit for surface replacement will be collected on the asphalt portion of road 4800. Approximately 50 cubic yards of spot rock will be needed on system roads. Specific requirements to prevent the spread of invasive species are included in the road maintenance specifications.

### Specified Road Reconstruction

There is no specified reconstruction for this sale.

### Erosion Control

Purchaser will be required to block temporary roads, install waterbars on landings, skid trails, and temporary roads, and seed landings, skid trails and temporary roads. A coop deposit of \$0.24/ccf will be required for the cost of the seed that will be provided by the Forest Service.

### Slash Disposal

Purchaser will be required to scatter or machine pile and cover logging slash at all landings. Purchaser shall treat logging slash within 25 feet of FS road 2480. Forest Service will burn piles.

### Scaling

This is a scaled sale.

### Others

Seasonal restrictions apply. See contract for details.  
Equipment cleaning is required before entering the sale area.
