ANNUAL OPERATING INSTRUCTIONS (AOI)
[redacted]

East Eagle Allotment
2015

I. PERMITTED USE:
The following table illustrates the number of livestock and season of use permitted on the East Eagle Allotment as per Term Grazing Permit 030103010 issued to [redacted] on January 13, 2011.

KIND	CLASS	NUMBERS	AUM	SEASON OF USE
Cattle	Cow/Calf	410	6464	3/1 – 2/28
Horses	Mature	10	144	3/1 – 2/28
	Total	420	6638	

II. AUTHORIZED USE:
The following numbers and classes of livestock are authorized to graze on the East Eagle Allotment this year.

KIND	CLASS	NUMBERS	AUM	SEASON OF USE
Cattle	Cow/Calf	197	260	3/1 – 3/31
Cattle	Cow/Calf	208	3020	4/1 – 2/28
	Bull	22	348	3/1 – 2/28
Horses	Mature	10	144	3/1 – 2/28
	Total	240	3772	

III. ROTATION SCHEDULE:
Actual dates may vary dependent on utilization levels, range conditions and time required moving livestock.

PASTURE	NUMBER	SEASON OF USE	USE STANDARD
Maylay	436	5/1 – 9/15	35% - 45%
South East Eagle	358	9/16 – 2/28	35% - 45%
McBride	Rest	Rest	35% - 45%
North East Eagle*	Rest	Rest	35% - 45%
Horse, Shorty	10 Horses	3/1 – 2/28	35% - 45%
Steer	Gather	9/15 – 10/15	35% - 45%
Maylay	Rest	Rest	35% - 45%
Dry Prong	Rest	Rest	35% - 45%
Sawmill	Rest	Rest	35% - 45%
War Finance	Rest	Rest	35% - 45%
Honeymoon	Rest	Rest	35% - 45%
Circle Trap, Triangle Trap, Eagle Trap, Steer Tank Trap, Saunders Trap, Sawmill Trap	Intermittent Use	Intermittent Use	35% - 45%

*Pasture can only be used if the Rim 54 fence work is completed.

ENTERED

IV. ALLOWABLE USE STANDARDS

Allowable use of forage is based on the amount and kind of forage on the allotment, plant needs, range condition, trend, and grazing management strategy. Duration, frequency, and timing may be manipulated within the grazing schedule to meet allowable use standards.

The allowable use levels for this allotment are established for key areas and key species by pasture for the time period livestock are in a pasture. The use on key species in key areas will ultimately determine the length of the grazing period in each pasture. The establishment of the utilization standards is consistent with 36 CFR 222 regulations, FSM 2210 and 2230, and FSH 2209.21.

For simplicity, key areas are generally considered as follows: 1) full capacity rangeland located on ridgetops/mesas within a 1/4 mile from available water sources; 2) canyon bottoms/riparian areas with free flowing water or springs regardless of distance from water; 3) any area containing full capacity range with erosive soils and insufficient/marginal ground cover to protect the soil; or 4) areas containing habitat, whether occupied, suitable and unoccupied, or potentially suitable habitat, for threatened, endangered, or proposed species that are of concern to the Forest Service.

Key areas may be designated in cooperation with the Forest Service and the permittee.

V. ADMINISTRATION

1. The permittee will record actual use as it occurs; including livestock numbers and dates your permitted livestock are in a pasture. This information will be reported at the next annual validation meeting.
2. Any change or deviation from this Annual Operating Instructions is to be coordinated and confirmed in advance with the District. If emergency conditions require making a change immediately, the permittee will notify the District as soon as practical.
3. Livestock remaining in pastures beyond the specified rotation date, that are allowed to drift between pastures, or grazing in rested pastures may be considered a violation of your Term Grazing Permit.
4. Livestock should be moved when forage utilization objectives have been met or within 1 week of planned rotation dates, unless changes have been confirmed with District Range personnel.
5. The District may spot check range improvements before the entry date to insure improvements are in a satisfactory condition. Livestock will not be allowed to enter pastures if assigned improvements are not maintained to proper standards. Livestock are not allowed to enter pastures if fences will not keep livestock where they are placed

VI. SALT AND MINERAL BLOCK

Typically, salt or mineral blocks are not to be placed within a quarter mile of water or drainage bottoms. Salt may be placed closer than a quarter of a mile to water for treatment purposes. If salt is placed less than a quarter mile from water, it will be moved every day or within 4 days at the most to a new location no matter where the salt is placed. Salt will be used to attract cattle to areas of a pasture typically not utilized and or for soil/range condition treatment purposes. Blocks may be removed by the District if found near water, over-utilized areas, meadow bottoms or roads. Blocks should be placed in a way that does not encourage erosion but treats the soil to upgrade it from the present condition.

VII. MONITORING

Monitoring and evaluation is an essential aspect of good rangeland management. Monitoring and evaluation can be described as the gathering of information so the manager knows what is happening to rangeland resources and why. The intent of monitoring and evaluation is to test the success of the management strategy and if needed, make adjustments. The following types of monitoring can be collected and will be used by the Forest Service for management decisions.

1. Forage Production
2. Forage Utilization
3. Photo Points
4. Condition of Improvements
5. Actual Use
6. Grazing Response Index

7. Precipitation.

VIII. RANGE IMPROVEMENT CONSTRUCTION / MAINTENANCE

The permittee will maintain all range improvements that are assigned for maintenance on pages 11 – 14 of the Term Grazing Permit. When improvements are completed the permittee will inform District Range personnel to schedule an inspection. Before using machinery to clean any pond, the permittee is required to give the District Office at least 45 days advance notice so that the tank can be inspected for threatened or endangered species. All work involving the use of heavy equipment will be accomplished only after prior approval of the District Ranger.

Current Year Improvement Scheduled		**YEAR**	**2014**
Improvement Type / ID #	**Completion Date**	**Description/Comments**	**Status Done /Date**
	Year Long	Routine maintenance as assigned on your permit	
	2015	Squirrel Canyon Tank	
	2015	Upper Maylay Tank*	
	2015	Hidden Tank*	
	2015	Cottonwood Tank*	

*Need clearances before starting work.

IX. PROTECTION

The permittee, his agents and employees, when acting within the scope of their employment, and his contractors and subcontractors will protect the land and property of the United States, waived private land and other land under jurisdiction of the Forest Service covered by and used in conjunction with this permit. Protection will include taking all reasonable precautions to prevent, make diligent efforts to suppress and report promptly all fires on or endangering such land and property. During periods of high fire danger, branding fires will be allowed by permit only.

X. ALLOTMENT INSPECTIONS

Forest personnel may conduct periodic brief inspections of pastures within the allotment at any time to verify actual use, improvement conditions, or other non-range related activity. The permittee will be notified and invited to participate on extended (3-5 days) inspections.

XI. DISCUSSION

- Solar well in Malay above Cowhead Tank needs to put in post and concrete.
- Fence near Gust property at Smelly crossing needs clearance to be put in.
- Repair fences damaged by flood, FS will provide 4 miles of fence material.
- Permittee would like to work with recreation on some trail work.
- Permittee is authorized to drive behind closed gate on the 8369 road to do work related to allotment management. FS will look into changing lock to T-style lock to accommodate two locks.

XII. PERMIT CONDITIONS

This Annual Operating Instructions is hereby made a part of the Term Grazing Permit as provided for in Part 2, Section 8(a). It complies with the standards and guidelines found in the Forest Plan.

Failure to comply with any of the terms and conditions specified in Parts 1, 2, and 3 of your Term Grazing Permit may result in suspension or cancellation, in whole or in part, after written notice. This is found in Part 1, Section 3, of your permit.
