Reason for Changing OBML

Access Log Creek RAWS, retain OBML 2.

Level 1 after new pipeline?

Shown as Level 1 but should have been decommissioned EA

A level 2 accessed by level 1 road (orphaned)

A level 2 accessed by level 1 road (orphaned)

Wilderness addtn-decomm last 0.13 mi., weeds EIS

BLM decommissioned the road below.

Need to correct for Daimas. Decision to leave open level 2

Goes to trailhead - Pinnacle

Blown out past Polallie Cr. OBML D (passive?)

2010 ZZRD Decomm EA, BLM needs access

Safety. Ranger wants to decommission the road.

Plantations/Dispersed Camping ML2, OHV EA -passive decomm

Access rec ML change ML3

Orphaned road accessed by Level 1

Orphaned road accessed by Level 1

Converted to Snowmobile Trail

South 1/4 to 1/2 mile still open.

Road failure between Plaza Creek & High Rock (segment a decomm candidate?)

convert to trail #517

Retain as ML 1, only the last 0.32 mi. (i.e. decomm 150 spur) to be decommed as per 2007 Clack Restor EA

does not access any developed rec. or high value resource use area, short 0.25 mi. spur

does not access any developed rec. or high value resource use area, short 0.25 mi. spur

does not access any developed rec. or high value resource use area, short 0.25 mi. spur

does not access any developed rec. or high value resource use area, short 0.25 mi. spur

does not access any developed rec. or high value resource use area, short 0.25 mi. spur

2001 Clack Restor Decomm, delay MP 2.0-3.5 until plantation entry, old Kink quarry

2011 EA, passive decomm w/delay, maintain BPA access

Needs to show up on roads layer

New Land to FS - Add to System Roads - Ingress/Egress
