

**Summary of Portions of Wilderness Evaluation Polygons under Consideration for Inclusion
in the Draft Environmental Impact Statement as
Potential Recommended Wilderness in Alternatives B and C for the Sequoia National Forest**

Table 1. Potential wilderness recommendations under consideration for inclusion in Alternative C only

Evaluation Polygon ID	Evaluation Polygon Acres	Evaluation Polygon Name	Acres of Evaluation Polygon Under Consideration for Potential Recommended Wilderness in Alternative B	Names (Acres) of Specific Potential Recommended Wilderness Under Consideration for Alternative B	Acres of Evaluation Polygon Under Consideration for Potential Recommended Wilderness in Alternative C	Names (and acres) of Specific Potential Recommended Wilderness Under Consideration for Alternative C
63	5,223	Lower Kern River Gorge	0	None	4,301	Lower Kern River (4,301)
66	8,289	Saturday Peak-Greenhorn Roadless	0	None	7,469	Saturday Peak (7,469)
73	15,128	Lightner Peak - Mill Creek	0	None	14,404	Lightner Peak (14,404)
1378*	71,974	Adjacent to John Muir and Monarch Wildernesses	0	None	14,529	Monarch Wilderness Addition (14,529)
1384	39,629	Cannel Peak	0	None	24,133	Cannell Peak (24,133)
1387	89,627	North Fork Kern-adjacent to Golden Trout Wilderness	0	None	41,052	Golden Trout Wilderness Addition (South) (41,052)
1390	1,100	Osa Meadows, Adjacent to Golden Trout Wilderness	0	None	975	Golden Trout Wilderness Osa Addition (975)

* Evaluation Polygon 1378 was evaluated as a whole, but it overlays the boundary between the Sierra and Sequoia National Forests and portions of it are on each forest. The figures here represent only the acres of the evaluation polygon and acres of potential recommended wilderness that fall within the Sequoia National Forest. Additional Potential Recommended Wilderness was derived from this Evaluation Polygon and that information can be found on the table titled "Summary of Portions of Evaluation Polygons under Consideration for Potential Recommended Wilderness in Alternatives B and C for the Sierra National Forest."

** Evaluation Polygon 1391 was evaluated as a whole, but it overlays the boundary between the Inyo and Sequoia National Forests and portions of it are on each forest. The figures here represent only the acres of the evaluation polygon and acres of potential recommended wilderness that fall within the Sequoia National Forest. Additional potential recommended wilderness was derived from this evaluation polygon and that information can be found on the table titled "Summary of Portions of Evaluation Polygons under Consideration for Potential Recommended Wilderness in Alternatives B and C for the Inyo National Forest."
