National forest roads are shown on this map for reference only. Roads actually open for public use are officially designated on the **Motorized Vehicle Use Map** that is available at all Forest Service offices.

Road conditions are subject to change, local inquiry strongly advised.

Note: Many roads through private lands on this map have been omitted because these roads are not under Forest Service jurisdiction.

All trails entering wilderness areas are closed to motorized or mechanized vehicles.

Public lands are subject to changes and leasing. Local inquiry should be made before entering.
