

Recreation Fee Program Accomplishment Highlights 2014 Angeles National Forest

New Monument

In October 2014, President Barack Obama designated 346,177 acres of existing federal lands as the San Gabriel Mountains National Monument, the eighth national monument under Forest Service management.

The designation will help ensure these lands remain a benefit for all Americans through rock art that provides a glimpse into ancient civilizations, an observatory that brought the world the cosmos, and thousands of miles of streams, hiking trails and other outdoor recreation opportunities. The monument serves as the backyard to the nation's second-largest urban center.

Recreation Fee Dollars

Recreation fee dollars are an investment in outdoor recreation. They support and enhance:

- Public safety
- Recreation site maintenance and improvements
- Educational experiences
- Informational wayside exhibits
- Youth programs and partnerships
- Interpretive programs

Current and future generations will benefit as 80-95% of the funds are reinvested in the facilities and services that visitors enjoy, use, and value.
