

Secure Rural Schools and Community Self-Determination Act of 2000
2-Year Extension of the 2008-2011 Authorization
Title II Special Projects

The Shasta County Resource Advisory Committee (RAC) is requesting proposals for natural resource improvement projects in Shasta County.

Projects can take place on private lands, but must demonstrate a strong benefit to the National Forest. Project types receiving the highest priority will:

Encourage timber harvest and sustainable forestland management
Create an innovative or alternative industry or product
Provide or enhance recreation opportunities
Benefit fish and/or wildlife

Support rural communities in Shasta County, now and into the future
Leverage additional funds or in-kind services
Collaborate with or enhance other projects
Provide on-the-grounds results

Proposals are welcome from individuals, businesses, non-profit organizations, tribes, and government agencies. All proposals must have completed environmental analysis (NEPA), including projects that would be implemented on private property.

Prior to submission, proposals must be approved by the District Ranger of the Management Unit on which the proposal would be implemented. Proponents are encouraged to combine proposals to demonstrate collaborative, cross-boundary efforts.

Deadline for submission is April 22, 2016. The 2015 Title II Project Submission Form can be downloaded from Shasta-Trinity National Forest RAC webpage <http://www.fs.usda.gov/main/stnf/workingtogether/advisorycommittees>; along with a signed District Ranger Project Support Checklist, also found at the RAC webpage. Both should be submitted electronically to Susan Erwin (serwin@fs.fed.us). Please do not submit older versions of the project submission form. For assistance with completing or submitting proposals, contact Susan Erwin at 530-226-2304.

Information about the Secure Rural Schools and Community Self-Determination Act or the Shasta County RAC can be obtained from Ted James, RAC Chair by phone at 530-378-8124.
