Dakota Skipper Habitat Survey Including recording incidental Lepidopteran species:

Once field work begins, the Contractor shall provide biweekly (e.g., every two weeks) Progress Reports which will be submitted electronically by e-mail, addressed to the Contracting Officer, Contracting Officer Representative, and the McKenzie Ranger District representative. At a minimum, the biweekly Progress Reports shall include a description of where, how, and when surveys were conducted, if any sensitive butterflies were sighted, and if any problems were encountered (e.g., weather, access, road conditions, etc.).

Progress Reports will be furnished starting approximately 1 July 2016. This date may vary due to weather conditions which influence the Dakota skipper populations.

If the head skipper surveyor has field support for this project, the assistant butterfly surveyors must be accompanied by the head butterfly surveyor within line of sight at all times while conducting skipper surveys.

The contractor will provide list of Lepidopterans observed per survey area with estimated numbers of non-federally sensitive species incidentally seen and exact numbers for Dakota Skipper.

Survey Methodology will be the methods listed on the individual's permit or the most recent United States Fish Wildlife Service (USFWS) protocol.

Besides what is mentioned in the permit, as of February, 2016, the "checklist method" is the closest thing to a protocol and is described in: Royer, Ronald A., Jane E. Austin, and Wesley E. Newton. 1998. Checklist and "Pollard Walk" butterfly survey methods on public lands. *The American Midland Naturalist*. 140(2). Northern Prairie Wildlife Research Center Home Page. <http://www.npwrc.usgs.gov/resource/insects/butsurv/>. The Fish and Wildlife Service may provide more protocol materials prior to survey season start.

The process amounts to habitat-centered Pollard-style random walks. That is, Dakota Skipper/Poweshiek Skipperling is searched for in patches of presumed habitat at each site. Searches are conducted according to the following parameters:

The sampling day generally begins after 9:00 am and ends no later than 5:00 pm local time;
Only individual Dakota Skippers identified within an estimated 5.0 meters on either side of the surveyor, within 5.0 meters of the ground, or 5.0 meters to the front are considered to be an "encounter;" and,
Only confident identification (e.g., net and release, close-up [perched] examination, confirmed photograph) is considered a valid encounter. Only individuals with a 10(a)(1)(A) permit will be allowed to net and handle the skipper specimens per the conditions of their permit.

The Contractor will notify the Contracting Officer, COR and/or District on-site contracts if sensitive species are located within one working day of the sighting.

Some areas have been identified as potential sensitive Lepidopteran habitat through a Geographic Information Systems (GIS) tool developed by DPG. The tool uses GIS layers relating to soils, vegetation, slope, inundation, and Dakota Skipper search history. The Contractor will be presented the GIS tool in conjunction with the post-award phone conference. Areas that are identified by the GIS model will as a guide that should be followed for areas to survey for Dakota Skipper.

There is requisite habitat flora for Dakota Skipper. The Contractor shall provide qualitative percentage estimates of forbs, native grasses and native grasses of requisite habitat flora in areas that they see Dakota Skipper at, <http://www.fws.gov/midwest/endangered/insects/dask/pdf/DakotaSkipperS7GuidanceFeb2015.pdf> Additionally, objective comments about other habitat conditions (such as grazing, habitat disturbances, Ecological Site Description, Soils) seen in the survey area will be listed.

The successful Contractor will survey the project area during optimal flight periods for Dakota Skipper. Surveys must be done within the Dakota Skipper survey window, which is historically about June 19th, 2016 through July 19th, 2016 (adjustments within these dates may be made by the surveyor depending on the professional judgment of the butterfly surveyor based on weather conditions).

| TASK BEGINS | WORK COMPLETED |
|---|---|
| Approximately June 19 th , 2016. Dates may vary because of weather conditions influencing Dakota Skipper populations | Approximately July 19 th , 2016. Dates may vary because of weather conditions influencing Dakota Skipper populations |

(4) Have, have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals Contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]
