- Mount Shasta Ranger District
  - Phone: (530) 842-4121
- Weed Ranger District
  - Phone: (530) 964-3113

**千万别怕雪崩**

Be aware of the hazards of water travel. Bath conditions of snowmobile, net, or snowshoe will turn into running water. Experience, weather, and the limitations of your body and equipment, plus a little common sense will make this easy. Slow down and make sure that your partner or group are able to meet any change that arises. The avalanche danger may increase as the equipment you have on your snowmobile. Always watch for avalanches and report them to the nearest Forest Service station. If you are caught in an avalanche, stay with your snowmobile. Do not try to run or walk away. Use the victim rescue techniques that you have practiced. For more information, call the local Ranger District Office for avalanche forecasts before venturing out.

**All snowmobile Trailheads offer warming huts that are available for the use of all winter recreationists.**

- **McCloud (530) 225-2240**
- **Hayfork (530) 964-3113**
- **Mt. Shasta (530) 842-4121**
- **Weed (530) 964-3113**

**In an Emergency**

Call 911 For Help

**Avalanche Awareness**

Avoid avalanche hazards.

Use snowmobiles on marked trails.

Ride at minimum speed near skiers or snowshoers.

Be prepared for cold and wet conditions.

Check Internet: www.shastaavalanche.org

**At the bottom of the slopes:**

- **Avalanche cord**
- **Rope or avalanche cord**
- **First aid kit**
- **Lunch, snacks, and emergency food**
- **Snowshoes or skis**
- **Proper clothing & extras (sunglasses, sunscreen)**
- **Avalanche beacon**
- **Avalanche rescue bag**
- **Headlamp or headlight**
- **Diameter of waist belt**
- **Proper clothing, food and water for the overnight stay**
- **Avalanche computer or GPS device**
- **Avalanche warning signs**
- **Avalanche warning maps**
- **Avalanche information, call the local Ranger District Office for avalanche forecasts before venturing out.**
