Cedar City, UT 84721

Dear Jason,

Please find attached a Title II Project Submission Form for consideration by the Dixie National Forest Resource Advisory Committee (RAC). The proposed project is for a Bridge across Swain's Creek on ATV Trail 1 in the Dixie National Forest. The Utah State Parks and Recreation Department has committed \$25,000 to this project contingent on its selection by the RAC.

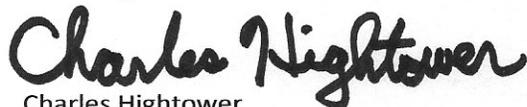

This RAC project submission was a joint effort by the public in conjunction with National Forest Service (NFS) personnel who have the experience and authority to implement such an undertaking. The project is unique in that it greatly enhances the safety and enjoyment of Off Highway Vehicle (OHV) riders throughout the Markagunt ATV trail system serving Iron and Kane Counties and meets all NFS Trail Management Objectives.

It is felt that projects like this will add to the public's enjoyment of the recreational opportunities in the Dixie National Forest and contribute to an improved local economy and tax base. This project has the enthusiastic support of Duck Creek Village businesses and supporters including Evelyn Ashworth of Coldwell Banker (Majestic Mountain Realty), Steve Ashworth (Dual A Construction), Rod Ence (Loose Wheels), Doug Stadlander (True Valley Hardware), Jeff Hoyt (Kane County Water Conservancy), and many more.

The Project Sponsor would like to recognize the assistance of National Forest Engineer Steven O'Neil, Trails Supervisor Sherryl Liermann, and Recreation Specialist Nicholas Glidden for their support and encouragement in pursuing this project.

Please don't hesitate to contact me if you have any questions.

Sincerely,

Charles Hightower
Project Sponsor
