10:00-10:15 BREAK

- 10:15 Proposed 2017 restoration projects on the Santa Fe National Forest –
- *Jeremy Marshall (SFNF)*; list of projects with desired outcomes distributed to collaborative members.
- 10:45 Small group breakout discussions. Questions to be discussed by all groups:
1. Do the proposed 2017 projects have complete and correct measures to determine if we are meeting objectives?
 2. Are the proposed 2017 actions well-integrated into the overall strategy?
 3. Will the proposed actions be effective? Why or why not?
 4. Are there issues or problems with any of the actions or individual projects as proposed? Create list for “all-hands” group discussion, with specific proposed adjustments.
 5. Are there actions that are not on the list, but should be, for 2017?
- Breakout groups: Guided by the questions above develop an evaluation of the actions proposed for 2017. How we break into small groups will be determined by the number and diversity of expertise of the participants.
 - A. Vegetation and fuels.
 - B. Fisheries and wildlife (includes vertebrates and invertebrates).
 - C. Watershed function, soil erosion, hydrology and water quality.
 - D. Socio-economics.

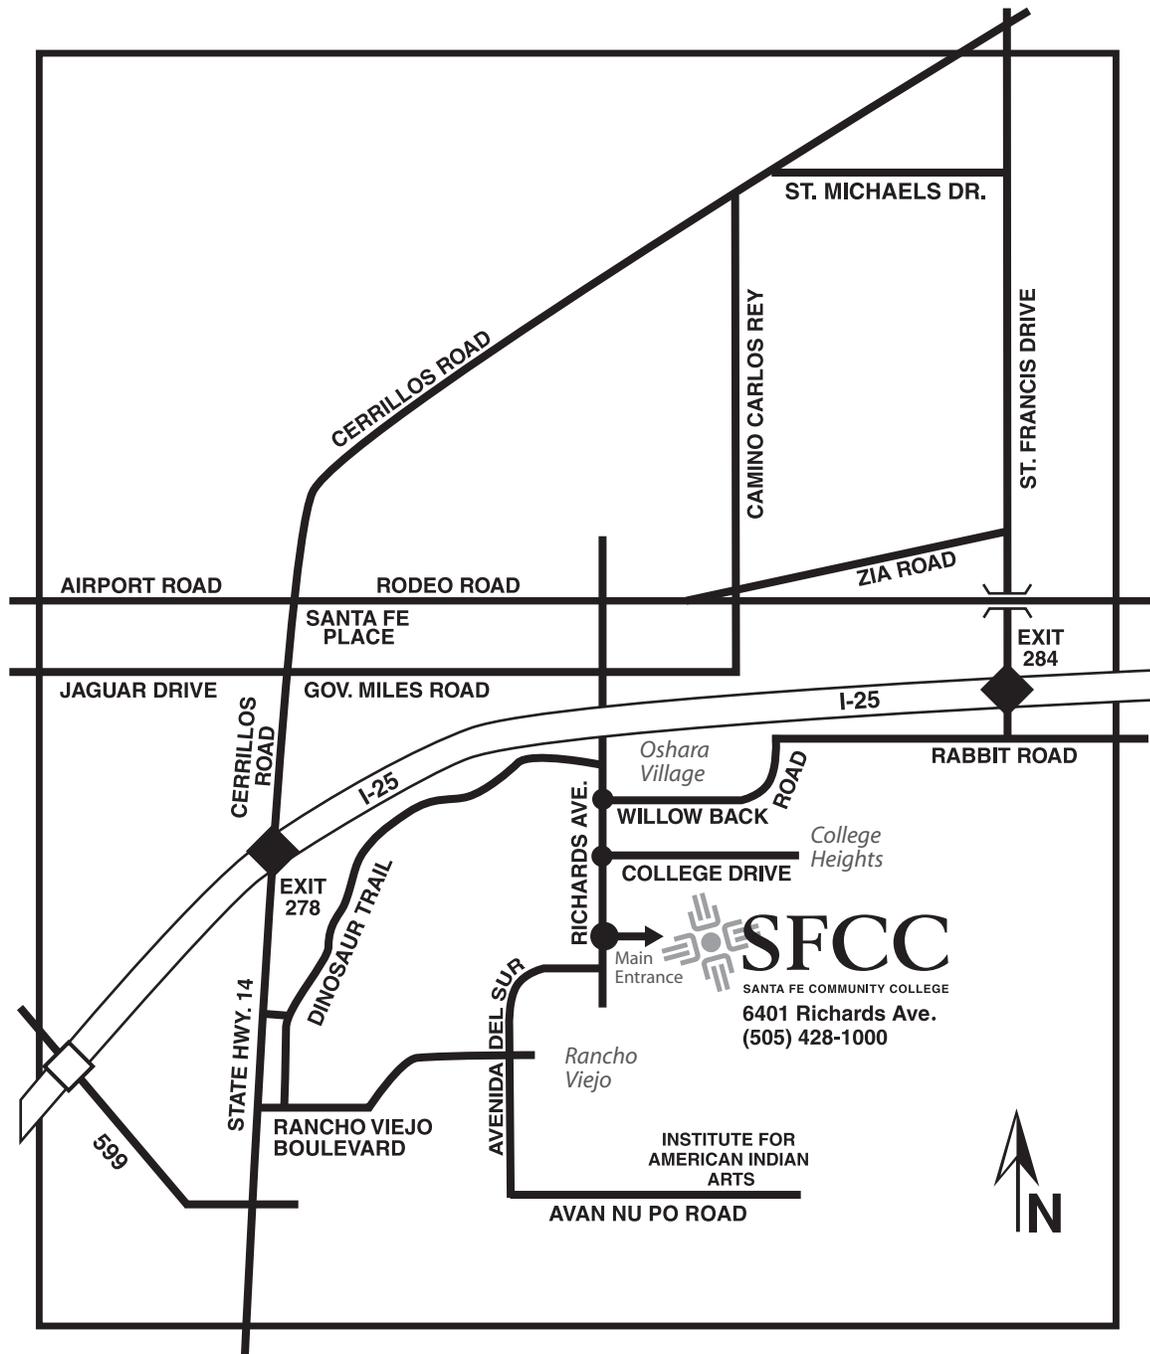

11:45-12:45 Lunch

12:45 Reconvene “all-hands” group, report out results of breakout groups (~10 minutes each).

- Present list of 2017 planned actions; discuss issues identified in morning group sessions including recommended adjustments to implementation or monitoring propose modifications to SFNF and VALL.

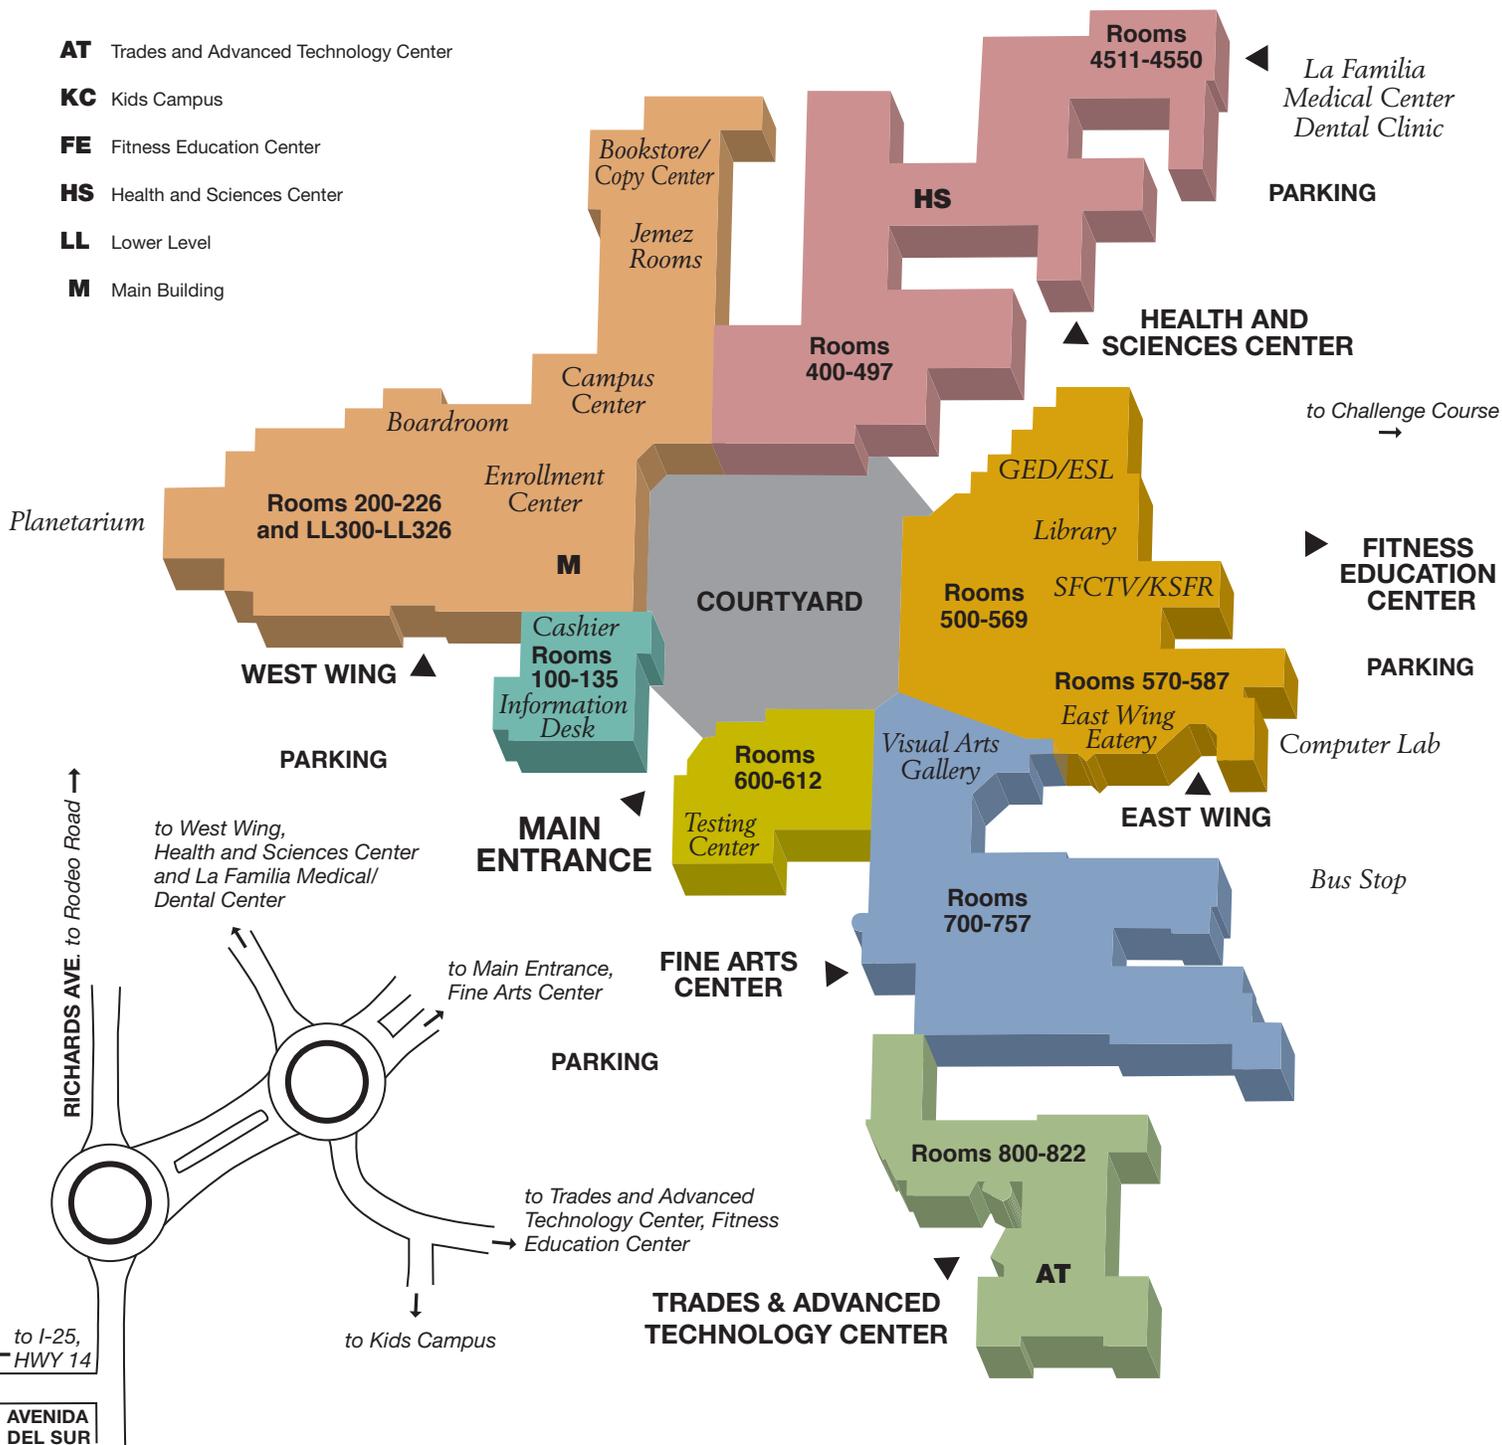

14:00 Re-cap and summarize 2017 project implementation list, with suggested modifications.

14:30 Adjourn.
