## Spring brings mushrooms to the Blue Mountains

It's about that time again when fungi begin pushing their way up through the soil. Avid mushroom hunters, both recreational and commercial, await their arrival every spring.

A permit is not required to harvest, possess, or transport less than one gallon in Oregon or less than five gallons in Washington. These free-use mushrooms are for personal consumption and cannot be sold, bartered, or given away.

A commercial mushroom permit is required if you are 18 years or older and harvest mushrooms to sell, or if you plan to harvest, possess, or transport more than one gallon in Oregon or more than five gallons in Washington. Commercial mushroom picking is prohibited in wilderness areas; therefore you cannot possess more than one gallon within Oregon wilderness boundaries or five gallons within Washington wilderness boundaries.

An Industrial Camping Permit is required if commercial mushroom harvesters and buyers plan to camp overnight on National Forest System lands. Industrial camping permits can only be obtained at the local Ranger District Office on the forest of which you plan to harvest. Commercial mushroom harvesters and buyers are prohibited from camping in developed campgrounds.

### Commercial permit rates

- Consecutive-Day: \$2.00 per day, minimum 10 days = \$20.00  
(Example: 14-day permit = \$28.00)
- Annual Permit: Jan. 1 - Dec. 31 = \$100.00
- Buyer's permit: \$600.00 plus administrative costs

Temporary road and area closures may still be in effect in last year's wildfire areas where unsafe conditions, such as hazard trees, are still being mitigated. Please check with the local ranger district office for updates on road conditions and current closures.

for the greatest good

## NEWS RELEASE

*(continued)*

Mushroom harvesters on the Umatilla National Forests and Wallowa-Whitman are required to display a recreation pass in the windshield of their vehicle when using a designated fee trailhead. Northwest Forest Passes cost \$5.00 for each day pass or \$30.00 for an annual pass. Recreation passes are available at Forest Service Offices and online through Discover Your Northwest at: <http://www.discovernw.org/>. The Malheur National Forest does not require a recreation pass.

Each year interest grows in harvesting mushrooms from National Forests. Proper identification and determination of whether a mushroom is edible is the responsibility of the picker. Many forest mushroom varieties are poisonous. There are many guide books available to assist with identification. Some forests offer field guides for sale. Your local library, county extension office and local Mycological Society are good sources of information.

Remember: When in doubt throw it out.

Have a great visit to the Blue Mountains, be prepared, enjoy your stay, and please don't leave trash behind.
