<p>Measurement of the estimated quantities will be made after felling. The Forest Service encourages potential bidders to make their own inspection and estimate prior to bid submission. The Forest Service makes no representation, warranty, or guarantee of the accuracy of quantity estimates.</p> <p>* Note - The conversion factors for MBF and CCF are derived by dividing the total tons from the cruise (WT4) into the total MBF and CCF (UC3). To achieve the best accuracy the conversion factor should include at least four decimal places.</p>
