The USDA Forest Service is seeking people with energy and commitment to the long-term benefit of the Cherokee National Forest, who also are interested in working with a diverse array of interests represented on a Resource Advisory Committee. Applicants for the Cherokee Resource Advisory Committee (RAC) under the Secure Rural Schools and Community Self-Determination Act (SRS) are currently being sought.

This committee is chartered by the U.S. Department of Agriculture consistent with the Federal Advisory Committee Act and is comprised of 15 members representing a wide array of interests.

Under Title II of the SRS certain counties may designate a portion of the funds they receive to projects reviewed by a RAC and implemented on federal land. Coker County and Monroe County are contributing funds to projects in the Cherokee National Forest.

A Secure Rural Schools Resource Advisory Committee (RAC) provides advice and recommendations to the Secretary of Agriculture through the Forest Service on the development and implementation of special projects on federal lands as authorized under the SRS Act. Examples of the types of projects that can be implemented under Title II include improving the maintenance of existing infrastructure, implementing stewardship objectives that enhance forest ecosystems, and restoring and improving land health and water quality.
