*Appendix 10: FS-2700-4h Special-Use Permit for Campground and Related Granger-Thye Concessions
Allegheny National Forest 2016*

In the absence of a current, Granger-Thye fee offset agreement, payment must be made pursuant to clause IV.C.2.

(b) Documentation of Expenses. Prior to reimbursement or credit for Granger-Thye fee-offset work, the holder shall submit sufficient documentation to allow the authorized officer to determine that the costs claimed are allocable to the Granger-Thye fee offset agreement, actual, reasonable, and not unallowable.

4. Final Payment. The Forest Service shall reconcile annually the actual permit fee against permit fee payments made and credits for fee offset work. The holder shall pay any additional fees owed for the past year's operation within 30 days of billing.

5. Overpayment. Overpayment of the permit fee will be reimbursed by the Forest Service only if paid pursuant to clauses IV.C.1 and 2. Credit for offset work pursuant to clause IV.C.3 is limited to the amount of the annual permit fee; expenses will not be reimbursed if they are greater than the annual permit fee.

D. DOCUMENTATION OF REVENUE. The holder shall provide documentation of use and revenue for purposes of permit fee verification.

1. Use and Revenue Data. The holder shall submit to the authorized officer on a monthly basis use and revenue data covering each week of the operating season. 2. Income Statements. No later than 90 days after the close of the holder's fiscal year, the holder shall submit to the authorized officer a statement of income reporting the results of the holder's annual operations. The statement shall include all adjustments, such as taxes deducted, and shall be broken down by categories of sales.

E. GRANGER-THYE FEE OFFSET. Pursuant to 16 U.S.C. 580d, the Forest Service may offset all or part of the permit fee by the amount paid by the holder for renovation, reconditioning, improvement, and maintenance deemed to be the government's responsibility, as defined below, of government-owned improvements and their associated land.

1. Definitions

(a) Maintenance. Actions taken to keep fixed assets in acceptable condition. Maintenance includes preventive maintenance, normal repairs, replacement of parts and structural components, and other activities needed to preserve a fixed asset so that it continues to provide acceptable service and achieves its expected life. Maintenance includes work needed to meet laws, regulations, codes, and other legal direction as long as the original intent or purpose of the fixed asset is not changed. Maintenance excludes activities aimed at expanding capacity of an asset or otherwise upgrading it to serve needs different from or significantly greater than those originally intended, such as construction of new facilities.

(b) Improvement. Advancing a fixed asset to a better quality or state. Improvement includes replacement. Replacement means substitution or exchange of an existing fixed asset or component with one having essentially the same capacity and purpose. Improvement is always the responsibility of the Government rather than the holder.

(c) Reconditioning or Renovation. A type of maintenance that rehabilitates an existing fixed asset or any of its components in order to restore the functionality or life of the asset. Reconditioning and renovation do not include construction of new facilities.

(d) Holder Maintenance, Reconditioning, or Renovation. Maintenance, reconditioning, or renovation that neither materially adds to the value of the property nor appreciably prolongs its life. The work serves only to keep the facility in an ordinary, efficient operating condition. From an accounting or tax perspective, it is work that may be expensed, but not capitalized. Examples include but are not limited to interior decorating, interior painting, vandalism repair, repair of broken windows, light bulb replacement, cleaning, unplugging drains, drive belt replacement, preventive maintenance, lubrication of motors, greasing, servicing, inspecting, oiling, adjusting, tightening, aligning, watering, weeding, sweeping, waxing, refinishing picnic tables, routine housekeeping, and general snow removal. In fulfilling these responsibilities, the holder shall obtain any licenses and certified inspections required by regulatory agencies and follow state and local laws, regulations, and ordinances and industry standards or codes applicable to the permitted operation.

(e) Government Maintenance, Reconditioning, Renovation, or Improvement. Maintenance reconditioning, renovation, or improvement that arrests deterioration, improves and upgrades facilities, and appreciably prolongs the life of the property. Examples include but are not limited to installing a new roof, new floor, or new siding; rebuilding boilers; replacing pipes, pumps, and motors; repairing or maintaining the paths, lands, walks, walls, or landscaping adjacent to other government-owned structures; replacing vault toilets with flush facilities, paving interior roads, upgrading facilities,

and installing utilities; and performing exterior painting and refinishing. Exterior painting that repairs unsightly visual marks caused by everyday use does not meet the definition outlined above. Government maintenance, reconditioning, renovation or improvement, whether performed by the holder or the Forest Service, shall be performed at the sole discretion of the authorized officer.

2. Granger-Thye Fee Offset Agreement. Before issuance of this permit and before each operating season thereafter, the Forest Service and the holder shall enter into an annual written Granger-Thye fee offset agreement that specifies the government maintenance, reconditioning, renovation and improvement to be used to offset the permit fee. The agreement shall specify whether the concessionaire shall be required or has the option to enter into a collection agreement to have the Forest Service perform the work. The agreement shall enumerate the portion of the permit fee to be offset by the cost of work performed by the holder and the schedule for completion of offset work. Additionally, the agreement shall specify the portion of the permit fee to be offset by the cost of work performed by the Forest Service. The agreement shall specify which projects are to be used for offset that year and shall also include standards for completion of the projects and examples of allowable costs.

3. Collection Agreements for Forest Service Oversight for Major Government Maintenance, Reconditioning, Renovation, and Improvements Performed by the Holder. The Forest Service may require the holder to enter into a collection agreement with the Forest Service to pay the cost of a Forest Service employee administering and overseeing major government maintenance, reconditioning, and improvement projects and offset those costs against the holder's annual permit fee. For purposes of this clause only, a major government maintenance, reconditioning, and improvement project is one costing or more. Allowable costs include monitoring to ascertain that work is being done to Forest Service standards. Allowable costs do not include routine permit administration by the Forest Service. If the Forest Service exercises this option, a separate collection agreement shall be executed by the parties and made a part of this permit.

F. FEE PAYMENT ISSUES

1. Crediting of Payments. Payments shall be credited on the date received by the deposit facility, except that if a payment is received on a non-workday, the payment shall not be credited until the next workday.

2. Disputed Fees. Fees are due and payable by the due date. No appeal of disputed fees will be considered by the Forest Service without full payment of the disputed amount. Adjustments will be made if dictated by settlement terms or an appeal decision.

3. Late Payments

(a) Interest. Pursuant to 31 U.S.C. 3717 et seq., interest shall be charged on any fee amount not paid within 30 days from the date it became due. The rate of interest assessed shall be the higher of the Prompt Payment Act rate or the rate of the current value of funds to the Treasury (i.e., the Treasury tax and loan account rate), as prescribed and published annually or quarterly by the Secretary of the Treasury in the *Federal Register* and the Treasury Fiscal Requirements Manual Bulletins. Interest on the principal shall accrue from the date the fee amount is due.

(b) Administrative Costs. If the account becomes delinquent, administrative costs to cover processing and handling the delinquency shall be assessed.

(c) Penalties. A penalty of 6% per annum shall be assessed on the total amount that is more than 90 days delinquent and shall accrue from the same date on which interest charges begin to accrue.

(d) Termination for Nonpayment. This permit shall terminate without the necessity of prior notice and opportunity to comply when any permit fee payment is 90 calendar days from the due date in arrears. The holder shall be responsible for the delinquent fees, as well as any other costs of restoring the site to its original condition, including hazardous waste cleanup.

4. Administrative Offset and Credit Reporting. Delinquent fees and other charges associated with the permit shall be subject to all rights and remedies afforded the United States pursuant to 31 U.S.C. 3711 et seq. and common law. Delinquencies are subject to any or all of the following:

(a) Administrative offset of payments due the holder from the Forest Service.

(b) If in excess of 60 days, referral to the Department of the Treasury for appropriate collection action as provided by 31 U.S.C. 3711(g)(1).

- (c) Offset by the Secretary of the Treasury of any amount due the holder, as provided by 31 U.S.C. 3720 et seq.
- (d) Disclosure to consumer or commercial credit reporting agencies.

G. ACCOUNTING RECORDS AND ACCESS. The holder shall follow generally accepted accounting principles or other cash basis of accounting in recording financial transactions. When requested by the Forest Service, the holder at its own expense shall have its annual accounting records audited by an independent public accountant acceptable to the Forest Service. The holder shall require any party who has responsibility for any day-to-day activities under clause II.F of this permit to comply with these same requirements. The holder shall make all of the accounting books and supporting records for the business activities authorized by this permit, as well as those of any parties authorized to operate under clause II.F of this permit, available for audit by the Forest Service or other federal agencies authorized to review Forest Service activities. The holder shall retain these records and make them available for review for five years after the end of the year they were generated, unless disposition is otherwise authorized by the Forest Service in writing.

This includes, but is not limited to, renovation, operating and maintaining the system and conducting drinking water testing, maintaining records to demonstrate compliance, and taking the appropriate corrective and follow-up actions in accordance with Appendix F of this permit (Operation of Federally Owned Drinking Water Systems) and federal, state, and any other applicable requirements. The holder shall be able to demonstrate compliance with Appendix F of this permit (Operation of Federally Owned Drinking Water Systems) and all other applicable requirements by maintaining all necessary records. For the purposes of this authorization, public water systems are as defined in the Safe Drinking Water Act, 42 U.S.C. 300f et seq., as amended, and in the National Primary Drinking Water Regulations, 40 CFR Part 141, or by state regulations if more stringent. Copies of microbiological test results for federally owned water systems shall be forwarded monthly to the Forest Service by the 15th of the month following the sampling date. Copies of all other drinking water sample results shall be forwarded to the Forest Service at the end of the operating season. If the operating season is longer than six months in length, copies of sample results must be provided to the Forest Service every six months. The holder shall clearly identify all sample results that violate FSM requirements or state, federal, and local requirements when the copies are submitted. Sample results that violate any of these requirements must have the results of required follow up samples attached. Copies of sample results that violate state requirements must have documentation attached to demonstrate that the state was informed of the violation within 48 hours of the lab notifying the holder of the results. The holder shall surrender all records for a federally owned system to the Forest Service upon permit termination or revocation.

Records to demonstrate operator certification shall be kept by the holder and made available to Forest Service upon request.

C. VANDALISM. The holder shall take reasonable measures to prevent and discourage vandalism and disorderly conduct and when necessary shall contact the appropriate law enforcement officer.

D. PESTICIDE USE. Pesticides may not be used to control undesirable woody and herbaceous vegetation, aquatic plants, insects, rodents, trash fish, and other pests and weeds without prior written approval from the authorized officer. A request for approval of planned uses of pesticides shall be submitted annually by the holder on the due date established by the authorized officer. The report shall cover a 12-month period of planned use beginning 3 months after the reporting date. Information essential for review shall be provided in the form specified. Exceptions to this schedule may be allowed, subject to emergency request and approval, only when unexpected outbreaks of pests or weeds require control measures that were not anticipated at the time an annual report was submitted. Only those materials registered by the U.S. Environmental Protection Agency for the specific purpose planned shall be considered for use on National Forest System lands. Label instructions and all applicable laws and regulations shall be strictly followed in the application of pesticides and disposal of excess materials and containers.

E. ARCHAEOLOGICAL-PALEONTOLOGICAL DISCOVERIES. The holder shall immediately notify the authorized officer of any antiquities or other objects of historic or scientific interest, including but not limited to historic or prehistoric ruins, fossils, or artifacts discovered as the result of operations under this permit. Protective and mitigative measures specified by the authorized officer shall be the sole responsibility of the holder. If protective measures prove inadequate, if other such areas are discovered, or if new species are listed as federally threatened or endangered or as sensitive by the Regional Forester, the authorized officer may specify additional protection, regardless of when such facts become known. Discovery of such areas by either party shall be promptly reported to the other party.

H. CONSENT TO STORE HAZARDOUS MATERIALS. The holder shall not store any hazardous materials at the site without prior written approval from the authorized officer. This approval shall not be unreasonably withheld.
