## **Priest Lake Ranger District to temporarily close Quartz Creek Road**

Nordman, Idaho (September 19, 2016) – The Priest Lake Ranger District is temporarily closing a section of Forest Service Road (FSR) 334, also known as Quartz Creek Road. The road will be closed while the culvert in Quartz Creek is replaced. The section of FSR 334 to be closed is from the junction with FSR 416 and the junction with FSR 1300. The road will be closed starting October 1 for public safety during construction.

Tim Knight, Priest Lake District Ranger, advised that he is aware that this is a popular route. Replacing the culvert improves the fish passage under the roadway. For additional information on this project, please contact the Priest Lake Ranger District at (208) 243-6800.
