

Motor Vehicle Use Maps (MVUM)

Now available on your phone!

Going hunting or ATV riding? Download the Bessey Ranger District Motor Vehicle Use Map and track your location. Navigate with only GPS (cellular data can be disabled), record your tracks, estimate travel times, and add place marks and photos to share with others.

Even more great features:

- Show GPS position
- Measure distances and areas
- Available even when not connected to the internet
- No data roaming charges
- Overlay search engine results on any map for offline use
- Handy map searching tools to find the map you need
- Load your own Geospatial PDF, GeoPDF®, GeoTIFF and JPG maps from the file system, Dropbox, a URL, or email

In the above screenshot, the red pin indicates a point that was created. The yellow line in the lower right corner is an example of a route that was tracked and the blue dot indicates your current location. This greatly helps locate where you are, and if you are on the correct route.

Step 1: Search for Avenza PDF Maps in your App Store on your Smart Phone, or scan the QR code to the right.

Step 2: Once you download the app, download the **Bessey or McKelvie NF Map** at the site listed below.

Bessey:

http://www.fs.usda.gov/Internet/FSE_DOCUMENTS/stelprd3830430.pdf
or scan the QR code in the right side of this box.

OR

McKelvie NF:

http://www.fs.usda.gov/Internet/FSE_DOCUMENTS/stelprd3830432.pdf

*Continued use of the GPS running in the background can dramatically decrease battery life.
