

## THE THREE RIVERS RANGER DISTRICT

Would like to invite you to a

# PROJECT AREA MEETING

for the

# STARRY GOAT PROJECT

Please join us from **5:30-7:00 p.m.** at the Troy Ranger Station  
**Thursday, November 17<sup>th</sup>, 2016.**

District Ranger Kirsten Kaiser and District specialists will be there to present maps, answer questions and take any comments or suggestions regarding the proposed Starry Goat Project. The proposed project includes timber harvest, prescribed burning for fuels reduction and wildlife habitat improvement and recreation improvement activities on FS lands.

The project area encompasses approximately 90,776 acres (48,471 acres in Montana; 42,305 acres in Idaho, all administered by the Kootenai National Forest). The project area is dominated by two inventoried roadless areas (IRAs): Roberts IRA #691 and the Willard Estelle IRA #173. The total IRA acres is 37,472. Callahan Creek, Brush Creek, Ruby Creek, and Star Creek are the major drainages in the project area; all flowing into the Kootenai River at the project area boundary. Callahan Creek Road (NFSR 427) and the South Side Road (NFSR 4402) are major travel routes through the project area. See the map below.

Please contact Kirsten Kaiser - District Ranger or Miles Friend - Project Leader, at the Troy Ranger Station for more information: 406-295-4693.
