Explanation of Legend Items

Roads Open to Highway Legal Vehicles Only:

These roads are open only to motor vehicles licensed under State law for general operation on all public roads within the state.

Roads Open to All Vehicles:

These roads are open to all motor vehicles, including smaller off-highway vehicles that may not be licensed for highway use (but not to oversize or overweight vehicles under State traffic law).

Special Road Vehicle Designation:

These roads are open only to motor vehicles less than 62 inches in width at the widest point on the vehicle.

Seasonal Designation:

This symbol, used in conjunction with one of the other road symbols, indicates that the road is open only during certain portions of the year. Refer to Seasonal Table for further instructions.

Other Public Roads:

- Interstate
- Highways, US, State
- Other Public Roads

These symbols are used to show routes the Forest Service does not have jurisdiction over and has not designated for motorized use. These symbols are part of the reference layers showing connections to towns and cities outside the forest boundary.

Short Route Identifier:

70333

This symbol is used for roads that are too short to show a symbol type on the map. The symbol contains the number of the road or trail. Users should refer to the corresponding number in the Short Route Table for designation information.

Cross-country OSV use is permitted with adequate snow cover, any time:

This symbol indicates areas where cross-country over-snow vehicle use is permitted at any time during the year when adequate snow cover is present.

Cross-country OSV use is permitted with adequate snow cover, seasonally:

This symbol indicates areas where cross-country over-snow vehicle use is permitted only during a specific time period, and when adequate snow cover is present.

OSV use is restricted to MVUM-designated NFS routes only:

This symbol indicates areas where over-snow vehicle use is permitted at any time during the year when adequate snow cover is present, but only on MVUM-designated routes.

OSV use is prohibited:

This symbol indicates areas where OSV use of any kind is prohibited. Examples of prohibited areas include wilderness areas, or areas not having adequate snowfall.

OSV use is prohibited, Arizona Trail:

This symbol indicates areas where OSV use is prohibited, except for travel on designated roads that overlap it, or for direct, perpendicular crossings of the Arizona Trail's alignment.

OSV use has not been designated within these areas:

This symbol indicates areas where OSV use has not been designated. Examples include private, state, or municipal lands, experimental forest areas, or lands of other jurisdiction.

Map Purpose and Content

Designations shown on this Over-Snow Vehicle Use Map (OSVUM) were made by the responsible official pursuant to 36 CFR 212.81, are effective as of the date of this OSVUM's front cover, and will remain in effect until superseded by a more recently published OSVUM.

Laura J. West

It is the responsibility of the over-snow vehicle user to acquire the current OSVUM. The OSVUM shows National Forest System routes and areas on National Forest System lands in Coconino National Forest that are designated for over-snow vehicle use pursuant to 36 CFR 212.81. This map only pertains to over-snow travel by over-snow vehicles, which include motor vehicles designed for use over snow and that run on a track or tracks and/or on a ski or skis, while in use over snow.

Designation of a route or area for over-snow motor vehicle use under 36 CFR 212.81 should not be interpreted as encouraging or inviting use, or implying that a route or area is passable, accessible, actively maintained, or safe for travel. Areas designated for over-snow vehicle use may contain gates, fences, and dangerous or impassable terrain, or may not include enough contiguous snow cover to travel safely using an over-snow vehicle. Information about prevailing snow conditions and maintenance of designated routes and areas will depend upon available resources. Many access routes may receive little, or no, winter maintenance, and in some circumstances, weather conditions could result in hazardous or dangerous conditions.

This over-snow motor vehicle use map identifies those routes and areas designed for over-snow vehicle use under 36 CFR 218.81 for the purpose of enforcing the prohibition at 36 CFR 261.14. This is a limited purpose. Other public roads and landmarks shown on this map are for information and navigation purposes only, and are not subject to designation under the Forest Service travel management regulations.

These designations apply only to National Forest System routes and areas on National Forest system lands.

Prohibitions

It is prohibited to possess or operate an over-snow vehicle on National Forest System routes or lands on Coconino National Forest other than in accordance with these designations (36 CFR 261.14).

Violators of 36 CFR 261.14 are subject to a fine of up to $5,000, imprisonment for up to 6 months, or both (18 U.S.C. 3571(e)). This prohibition applies regardless of the presence or absence of signs.

A national forest may issue an order to close a designated route or area on an emergency or temporary basis to protect the life, health, or safety of forest visitors or the natural or cultural resources in those areas. Such temporary and/or emergency closures are consistent with the Travel Management Rule (36 CFR 212.52(b), 36 CFR 261 subpart B), and motor vehicle operators must comply with such orders.

Over-snow designations do not supersede State traffic or other vehicle operation laws.

Operator Responsibilities

Operating an over-snow vehicle on National Forest System routes, and in areas on National Forest System lands, carries a greater responsibility than operating that vehicle on private or non-Federal lands. Not only must you know and follow applicable traffic laws, you must respect the environment and other forest visitors. Misuse of over-snow vehicles can lead to temporary or permanent closure of designated routes and areas. As a motor vehicle operator, you are also subject to State traffic law, including State requirements for licensing, registration, and operation of an over-snow vehicle.

Over-snow vehicle use involves inherent risk that may result in property damage, serious injury, or death. Drive cautiously and anticipate surfaces and features that may not be visible due to snow cover. By your participation, you voluntarily assume full responsibility for these damages, risks, and dangers. Take care at all times to protect yourself and those under your responsibility.

Much of Coconino National Forest is remote, and assistance may not be readily available. Cellular phones may not work in many areas of Coconino National Forest. Take adequate food, clothing, water, first-aid supplies, and other equipment appropriate for winter weather and travel conditions.

ALWAYS REMEMBER TO RESPECT PRIVATE LAND! PROTECT YOUR PRIVILEGE. STAY ON DESIGNATED ROUTES AND AREAS.

Read and understand this map in its entirety. If you have questions, please contact Coconino National Forest for clarification.

As a motor vehicle operator on a National Forest System route or area, you must comply with this map, as well as Federal, State, and local laws and regulations. Compliance with these rules is your responsibility.

Feedback

Coconino National Forest wants to hear from you. If you have concerns about which routes or areas are open or closed, or want to report an issue with a route, area, or signage, you can do so by visiting: http://go.usa.gov/Qww, or by calling 928-527-3600.

Blanket Statements

Over-snow vehicle access – Many routes and areas are designated for over-snow motorized use on Coconino National Forest, but fences, closed gates, and lack of adequate snow cover may limit the number of locations that provide physical access to designated routes and areas. Visit Coconino National Forest's webpage at http://www.fs.usda.gov/coconino/ for information about areas specifically managed for OSV access to the Forest, or contact a local District office to obtain information about OSV access, parking, and prevailing conditions.

Resource damage - It is prohibited to operate any vehicle on National Forest System routes or lands in a manner that damages natural or cultural resources (CFR 36 261.12 (h)).

Snow depth - No minimum snow depth standard for OSV use has been established, but impacts to natural or cultural resources that result from OSV use on marginal snow depths will be considered resource damage.

Arizona National Scenic Trail - OSV use along the Arizona National Scenic Trail's alignment is prohibited except where the trail is co-located with a designated road route as shown on this map. OSVs may cross segments of the Arizona National Scenic Trail not co-located with a designated road route following a path roughly perpendicular to the trail's alignment. In some areas, signed Arizona Trail crossings have been, or will be, marked to minimize conflicts with non-motorized over-snow users.

Coconino National Forest is working to relocate the Arizona National Scenic Trail away from designated road routes to provide a non-motorized setting. This map will be updates as changes are made to the Arizona National Scenic Trail's alignment.

Speed limits – Arizona state law requires that a person shall not operate a vehicle on a public roadway at a speed greater than is posted, or than is reasonable and prudent given the circumstances, conditions, and actual and potential hazards. It is recommended that those on Coconino National Forest adhere to a speed limit of 25 miles per hour on forest roads, unless otherwise posted, and maintain a speed limit of 10 mph in the vicinity of campgrounds, trailheads, and other congested areas.

Wilderness – Over-snow vehicles are prohibited within the boundaries of all designated Wilderness areas.

General - All roads designated as "Roads open to highway legal vehicles only" or "Roads open to all vehicles" allow for OSV use, as long as mapped area closures, mapped seasonal closures, and on-the-ground signage are adhered to. This map is designed to show where existing rules allow for OSV use. However, on many routes designated as open to OSV use, there are seasonal road closures designed to discourage wheeled motor vehicle use during winter weather for public safety and/or to prevent resource damage. These closures often include closed gates that may prevent safe passage of OSVs. Coconino National Forest may strategically open gates or may install gates specially designed for snowmobile passage to allow OSV use on popular over-snow routes during winter conditions. Please contact your local Ranger District office or refer to Coconino National Forest's website for current information on where management activities have occurred that facilitate OSV access.
