

**Travel Management Rule
SubPart A
Road Risk/Benefit Assessment**

White Mountain National Forest

Grafton, Carroll and Coos Counties - New Hampshire
Oxford County - Maine

Risk - Benefit Map

The goal of the national Travel Analysis Process (TAP), referred to as "Subpart A" of the 2005 Travel Management Rule, 36 CFR 212, is to define a safe, fiscally feasible minimum road system that provides the greatest benefit to the largest number of visitors with the least risk to the environment. In an effort to assess the risks and benefits of our current road system, the White Mountain National Forest posed 26 resource questions for each road. This map shows the results of the analysis. For more information please refer to the Data Resources Guide and the Travel Management Rule.

Projection: NAD 83 NH State Plane US Feet

Data Sources: Roads from USFS Transportation and INFRA; National Forest Ownership from USFS ALP; Waterbodies from USGS NHD; and input from employees of the WMNF.

The Forest Service uses the most current and complete data available. GIS data and products accuracy may vary. They may be: developed from sources of differing accuracy, accurate only at certain scales, based on modeling or interpretation, incomplete while being created or revised, etc. Using GIS products for purposes other than those for which they were created, may yield inaccurate or misleading results. The Forest Service reserves the right to correct, update, modify, or replace GIS products without notification.
