

POKEMON

Project

Grade: 5th

10 years old

Naukati
school

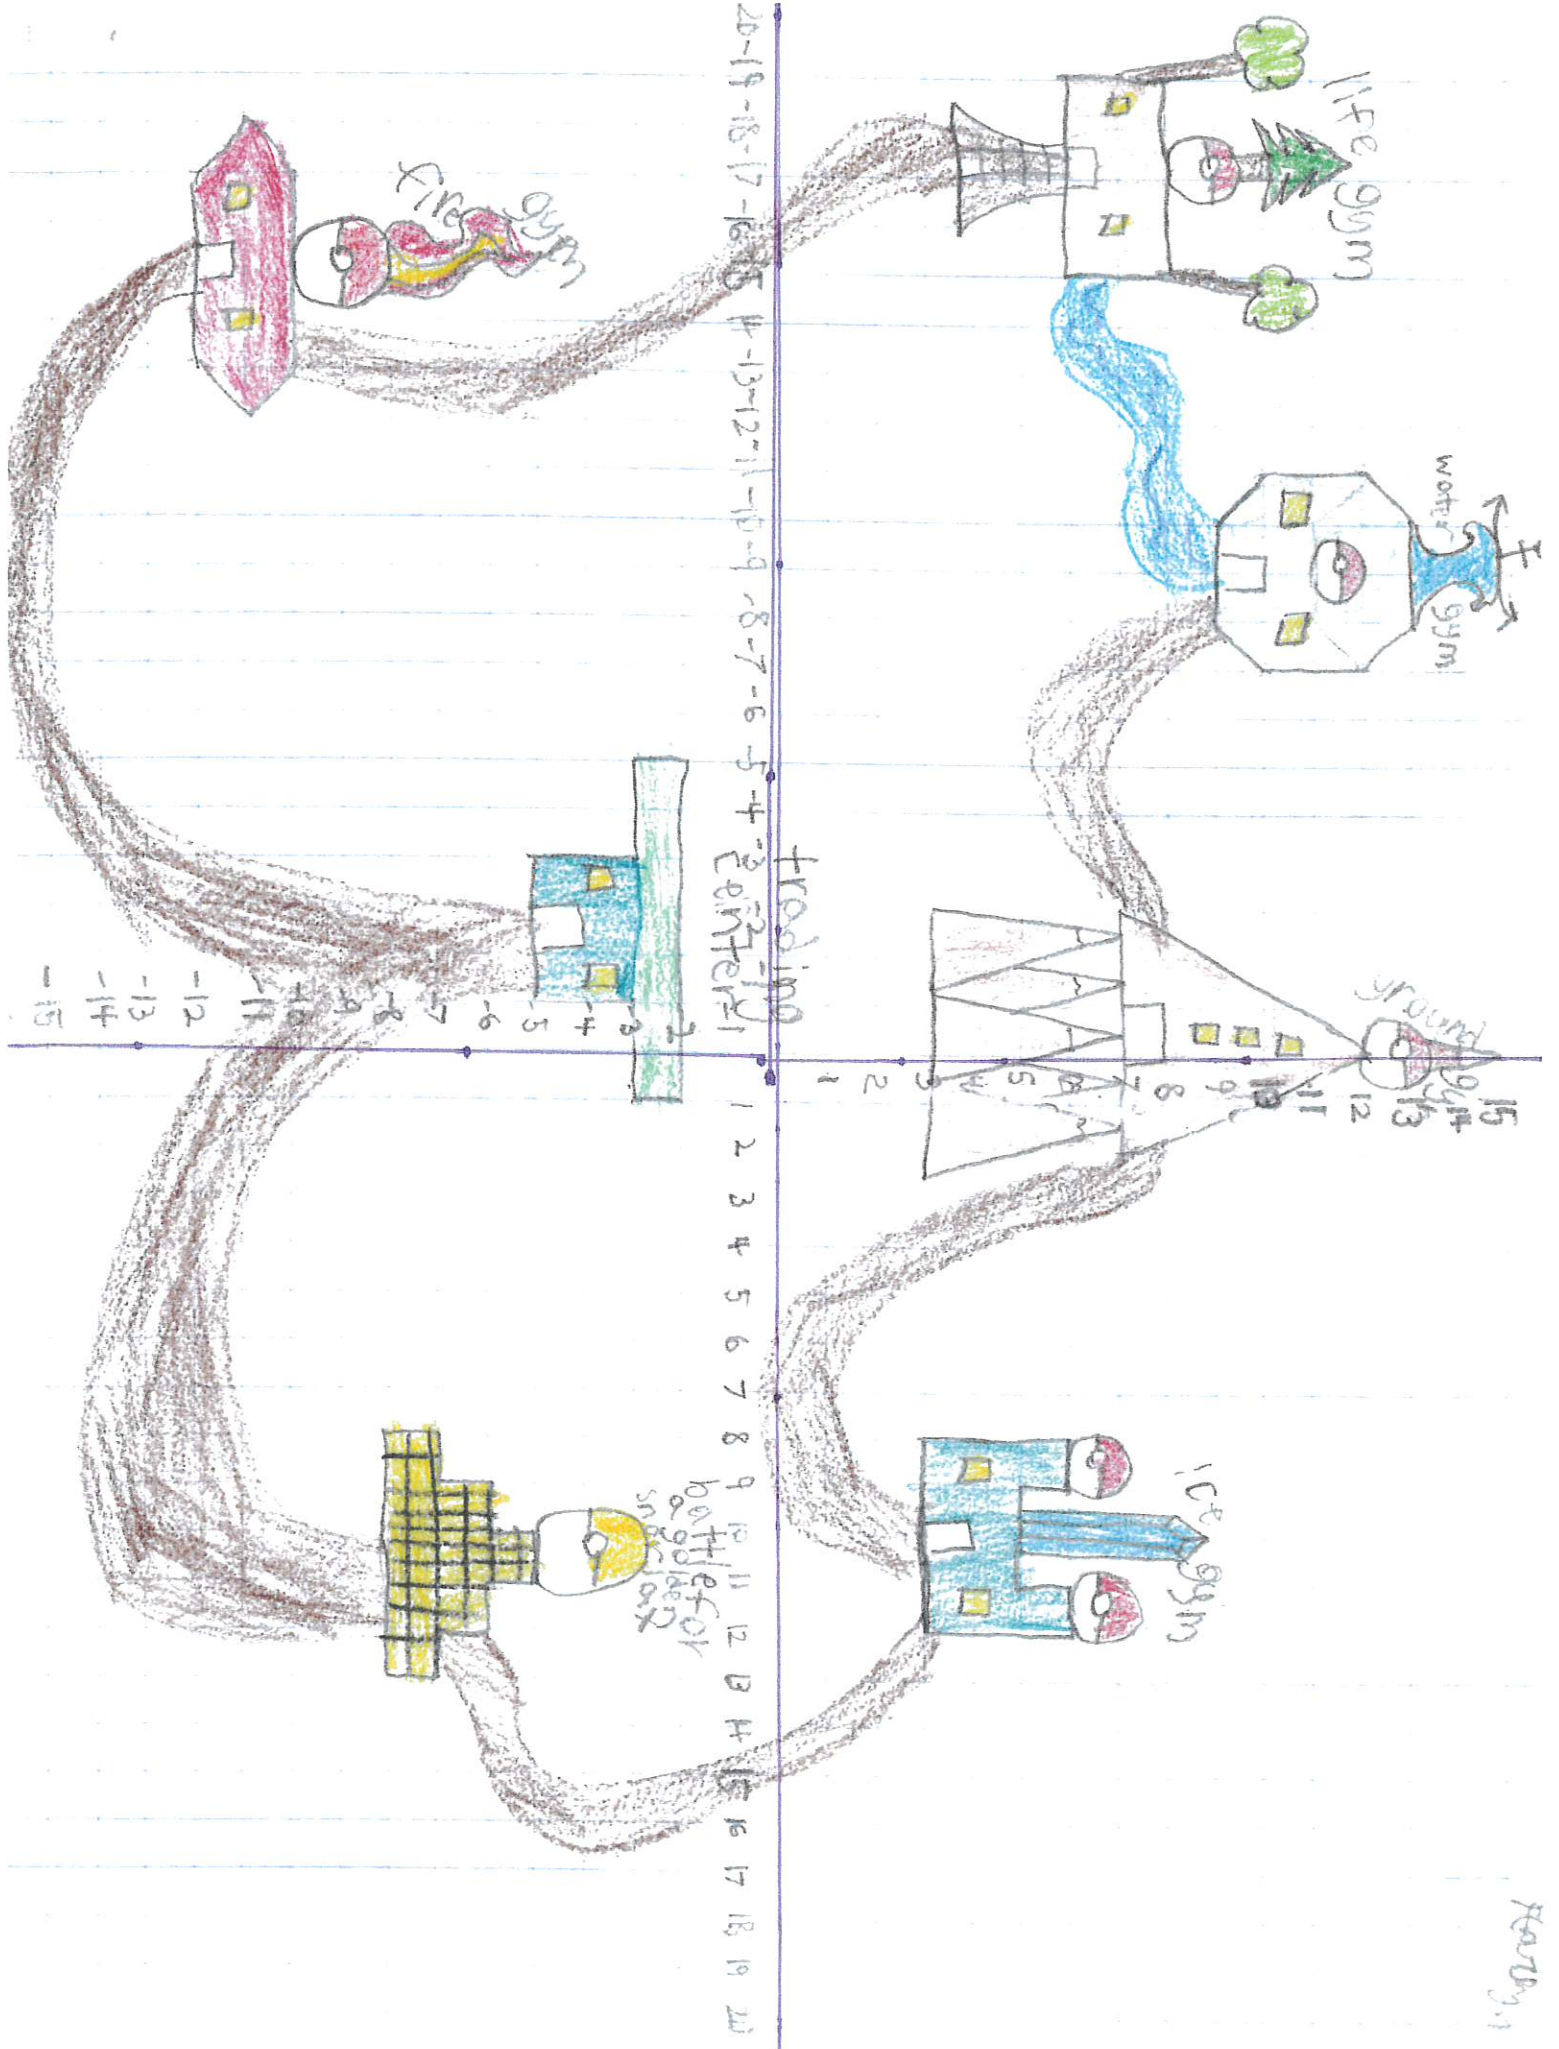

Hi my name is Harlyn Fehr. I am 10 years old and live in Naukati. I am interested in having a Pokemon trail built in our National Forest. Why I want to build Pokemon gyms so people can battle for fun and make new friends.

My idea is to have 6 buildings that people can go to battle Pokemon cards. At the last building is a place you go to battle for a trophy. When you win, you can go to trading center and buy Pokemon cards or trade Pokemon cards.

The advantage to having this is to use old Pokemon cards and be able to get new ones. Another advantage is that other kids will have a place to trade. If you're a new trainer you can buy new Pokemon cards.

Thank you for reading this letter and hope you consider this idea. If you have any more questions you can write me a letter back at Naukati school. I hope to hear from you.
