

PAINT BALL PROJECT

Name: Tryston Quigley
From: Naukati School
Grade: 5th

Hi my name is Tryston and I'm a Naukati School student. I would like to see a paintball field built on national forest land. I will list some of the advantages and concerns also I will tell you my plan.

My plan is for a paintball field with a snack shack, multi age playground, parking, and restrooms. I would like the paintball field to be in a place such as a field with few trees in the area with trails compacted with red rock. I would like red rock because it stands out and you can't get lost.

Some of the advantages to this plan is the people of Pow would get out and play outside. I think it would open job opportunities. The jobs may attract people to come to are beauty island.

Some concerns may be kids coming home with welts. People may also think the paint hurting the environment. We will use biodegradable paintballs.

I would like this idea to work because I don't have anything to do and I think it would be a fun sport plus new job would open up.
