The Gun range

By Harley loud

Hi my name is Harley. I'm from Naukati. I'm sending this message to you because I heard you might build something in our national forest, and I have an idea. In the following paragraphs, I will explain my idea.

I think in a gun range should have a inside and outside course. It should have 50 slots inside and out and walking and fourwheeler trails to go hunting on.

Obviously have a parking lot. Have the tree stands to shoot out of. It will have rivers , lakes , and ponds. We could have fish in all of it. Have gun and fourwheeler rentals.

Ups: It would teach kid to shoot better and more responsible. It teach people were to shoot the deer and or bear so the people don't ruin the meat. last but not least it's just plain out fun.

Downs: It's a safety hazard.

Thank you for listening to my idea. I would love to see this hapen. please take my idea into consideration.
