

File Code: 2210/2230
Date: June 8, 2018

Layne Miles
Secretary/Treasurer
Uintah Basin Grazing Association
HC 65 Box 27
Altamont, UT 84001

Dear Permittee,

Below is a revised grazing schedule correcting the dates of use and days in each pasture. This schedule is expected for an average forage production year. The 2018 grazing season snow pack and spring precipitation are at a record low and will most likely require adjustments to number of livestock and/or days of use in each pasture. Please communicate with the Forest Service your plans for changes related to reduced forage and water availability for your livestock. Nonuse will be approved for resource protection.

<u>Permittee</u>	<u>Kind</u>	<u>Number</u>	<u>Nonuse</u>	<u>Season</u>
Uintah Basin Grazing LLC	Cow/Calf	360	0	7/1-9/30

Grazing Schedule

<u>Unit</u>	<u>Sequence</u>	<u>Dates of Use</u>	<u>Days</u>	<u>Allowable Use</u>
Diamond Gulch	1st	7/1-7/25	25	≤ 50% of key forage species
East Mckee	2nd	7/26-9/8	45	
Pot Holes	3rd	9/9-9/30	22	≥ 4" residual stubble height of graminoids along the greenline

If you have questions or concerns, please contact Garry Brown at:
