Logan Cave:

The cave is gated closed. The cave was closed to the public on October 1, 1997 to ensure the viability of a rare and special biological community of Townsend's Big-Eared Bats that is located in Logan Cave. The bats are particularly vulnerable to human disturbance during their periods of mating, hibernation, and maternity colony, which runs from about October to August each year. The Big-Eared Bat is listed as a sensitive species by both the Forest Service and Utah Division of Wildlife Resources. To aid with protecting this species during their vulnerable period, it is prohibited to go into or within 250 feet of the mouth of the Logan Cave.

Guard Station:

The Blacksmith Fork Guard Station is available to rent year round. Reservations can be made by contacting the National Recreation Reservation System (NRRS) by calling 877-444-6777 or visit the webpage at www.recreation.gov.

Developed Area Uses:

In our developed areas (i.e. campgrounds, picnic areas, and trailheads), campfires are only permitted in Forest Service constructed permanent cement, metal fire rings, or grills.

Firewood Permits:

The Logan Ranger District will be offering firewood cutting permits this year. Permits will be valid for dead and down wood only, in designated areas. These permits will be available mid-June. Please call the office at 435-755-3620 for more information.

Pallet Closure:

The pallet closure prohibits any firewood material containing nails, screws, or other metal hardware on the forest.
