

### Chequamegon-Nicolet National Forest - Recreation Program Comment Form

The Chequamegon-Nicolet National Forest is seeking input from recreationists and community stakeholders as it works to develop a sustainable recreation program, specifically for its campgrounds, boat landings, trailheads, picnic areas and beaches. The Forest can no longer afford to finance aging facilities, underused picnic areas, campsites and recreation areas. The Forest is seeking input to help determine the most suitable activities, investments and locations; and how they complement other offerings on private and public land.

Please use this form to share your comments and what specific recreation sites/activities on the Chequamegon-Nicolet National Forest are most important to you and why.
