<p data-bbox="69 331 334 359"><a href="#">View list of Rec sites</a></p> 	Year-round	Safety	<p data-bbox="760 331 1563 485">Forest weather may change rapidly any time of year. Check the current road, trail &amp; weather conditions before your trip. Weather patterns may create hazardous conditions on forest service roads or trails. Be prepared for all conditions <a href="#">&amp; know before you go</a>. Please review <a href="#">Goat safety</a> guide.</p>
<b>Mount Walker #894</b>	11/26/2018	Hiking	<p data-bbox="747 556 1547 615">It was an extremely windy day and there were 3 trees READY to fall on the trail. It was a dangerous situation.</p>
<b>South Fork Skokomish River Trail #873</b>	1/26/2019	Hiking	<p data-bbox="747 646 1572 947">Hiked the trail from the Lebar Horse Camp TH to Camp Comfort, and returned via the road-to-trail 190-2355 spur connector trail and FS Road 2355. The road in to the TH was snow free. The trail is in great condition over this section. There was some continuous puddling in the trail ditch just beyond Homestead Camp for ~50 feet, but the trail was otherwise mainly dry with a few other muddy sections. There is some blowdown (~6 trees) spread out along the trail, but most was fairly passable. The creeks were running high'ish but still cross-able with some interesting hops. FSR2355 has ~3 blowdowns across it that will require a chainsaw to clear. -mpe</p>
