

Andrew Pickens Ranger District Road Repair and Maintenance

The Andrew Pickens Ranger District has awarded a three-year contract to address road repairs and maintenance throughout the district's road system. Work has already begun on the initial year's task order with completion expected by September 2018. In total, 62 Forest Service roads have been identified in the three year contract which addresses approximately 86 miles of roads. The road work will include grading, culvert clearing, ditch work and rock distribution. Over the next three years the district is planning to submit additional contracts to target specific roads projects.
