# Welcome to Dutch Hill!

---

The Dutch Hill Recreation area is a partnership between the Dutch Hill Alliance of Skiers and Hikers (DHASH) and the U.S. Forest Service (USFS). DHASH and USFS are working to create opportunities for backcountry skiers and other outdoor enthusiasts on lands of the former Dutch Hill Ski Area. The ski area operated from 1944 to 1985 and is now part of the Green Mountain National Forest.

**Snowshoeing** Snowshoers are welcome at Dutch Hill. We recommend using the **uptrack** route to the summit vista, a journey of just under two miles round trip. Where possible, **please try to keep to the side of the trails and avoid walking on ski tracks**. This helps to create more enjoyable and potentially safer conditions for skiers, especially beginners.

**Cross country skiing** The **uptrack** route and the **legal trail** (an old town road that once led to settlements on Dutch Hill) provide the best opportunities for intermediate and advanced cross country skiers. You may encounter snowmobiles on the legal trail. Other routes may prove challenging for those on lighter weight cross country ski equipment.

**Backcountry skiing** Use the **uptrack** route to access the downhill ski runs opened for winter 2018 (those with waxless skis can often climb the uptrack without skins).

**Yankee Doodle** is an advanced trail due to its many trees and a steep, sharp corner at Connector. Use **Connector** to avoid the steepest part. The former T-bar **Lift Line** is steep, narrow, and for experts only. It requires good snow cover, as does the advanced **glade** off Yankee. The gentle, wide-open **Dutch Meadows** slope is a great place for beginner skiers to practice their turns, while the upper **Dyke** is more advanced. Other trails and terrain are open to exploration, though no clearing has been done.

**Sledding** Sledding has long been popular on **Dutch Meadows**. This slope has been recently cleared so that people may continue to enjoy this activity.

Please consider reserving the downhill ski runs for just that...downhill skiing. This will provide a more enjoyable experience for skiers, and a safer experience for everyone. Thanks!

**SKI THE TREES  
SAVE THE FOREST**

**NO VEGETATION CUTTING  
IN THIS AREA!**

The future of additional access opportunities relies on you. Respect public and private lands: no cutting.

---
