

Community Conversations

The public is invited to participate in community conversations about future forest health projects on the Grindstone Ranger District

Your interests and concerns are important. These conversations are an opportunity for you to help the Mendocino National Forest develop and implement future projects.

The three scheduled events will include a short presentation followed by a brief question and answer session, with the majority of the allotted time reserved for an open house with Forest Service resource specialists.

Input from the public will be gathered by the resource specialists and a comment box will be provided.

Please join us!

For more information, contact:

Linda Serret
District Environmental Coordinator
(530) 934-1148

or

Dionne Uzes
Acting District Ranger
(530) 934-1151
