

# FRANCIS MARION NATIONAL FOREST

## Revised Land Management Plan

### Administrative Change #4 Corrections to Clerical Errors – Manatee

June 2018

The 2012 Planning Rule, issued by the Forest Service in April 2012, allows the USDA Forest Service to make non-substantive corrections or adjustments to the revised Forest Plan using a process called “Administrative Changes.” “Administrative changes” as defined by 36 CFR 219.13(c) in the 2012 Planning Rule are...*“any change to a plan that is not a plan amendment or revision. Administrative changes include corrections of clerical errors to any part of the plan, conformance of the plan to new statutory or regulatory requirements, or changes to other content in the plan (§219.7(f)).”*

#### Administrative Change #4-Manatee

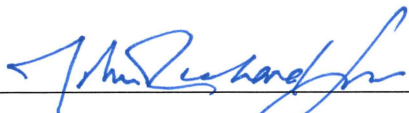

Table D-1 List of at risk species on the Francis Marion in Appendix D (page 163) of the Francis Marion Land Management Plan (LMP) incorrectly listed Manatee as Species of Conservation Concern. Incorrect information is indicated by ~~strikethrough text~~ followed by the correct designation highlighted in yellow. The change to Table D-1 is shown below:

**Table D-1. List of at-risk species on the Francis Marion\***

Taxa	Scientific Name	Common Name	Rank
Mammal	<i>Trichechus manatus</i>	West Indian Manatee	<del>Species of Conservation Concern</del> <b>FederallyThreatened</b>

This Administrative Change is in accordance with 36 CFR 219.13(c). This action does not constitute a change to plan components as defined by 36 CFR 219.7(e), and meets the intent of *“corrections of clerical errors to any part of the plan”* (36 CFR 219.13(c)).

This “Administrative Change #4: Corrections to Clerical Errors – Manatee”, is effective upon signature and being posted online. Administrative changes are not subject to the objection process (36 CFR 219.50).
