		Region 10 TOTAL: 2 units, 2 plans		
TOTAL ADMIN UNITS: 110 units			TOTAL PLANS: 130 plans	

Additional Administrative Units without a separate NFMA Plan:

6 Oregon [Columbia River Gorge](#)

The Columbia River Gorge National Scenic Area (CRGNSA) Management Plan is under the authority of the Columbia River Gorge National Scenic Act. However, it includes areas that are also covered by Land Management Plans for the Gifford Pinchot National Forest (State of Washington) and the Mount Hood National Forest (State of Oregon). Projects must be consistent with the Gifford Pinchot or Mount Hood plans, depending on the location of the project. The last revision of the plan was in 2004.

8 S. Carolina [Savannah River Site](#)

The Savannah River Site is administered by the Forest Service through an interagency agreement with the Department of Energy. It does not have National Forest System lands, but the Forest Service prepared a Land Management Plan in 2005 on behalf of the Department of Energy.
