Changes to Forest Plan: Appendix A, Table A-4. Green Mountain NF Miles of Trails by Managed Use

Administrative corrections as defined at 36 CFR 219.31(b) in the 2000 Planning Rule¹ may be made at any time, are not plan amendments or revisions, and do not require public notice or the preparation of an environmental document under Forest Service NEPA procedures.

Administrative corrections include the following:

1. Corrections and updates of data and maps,
2. Updates to activity lists and schedules (proposed actions, anticipated outcomes, projected range of outcomes);
3. Corrections of typographical errors or other non-substantive changes; and
4. Changes in monitoring methods other than those required in a monitoring strategy (referring to the requirements for monitoring sustainability criteria in the 2000 rule.)

Forest Plan, Appendix A, page A-9 (36 CFR 219.31(b)(1))

Appendix A: Analysis of the Management Situation states:

¹ The U.S. District Court for the Northern District of California has enjoined the Forest Service from implementing the 2005 planning rule. Therefore, administrative corrections to the Forest Plan are currently governed by the 2000 planning rule, which became effective again on April 27, 2007.
