

**Forest Service Handbook  
Alaska Region (Region 10)  
Juneau, Alaska**

---

**Forest Service Handbook 2709.11 – Special Uses Handbook**

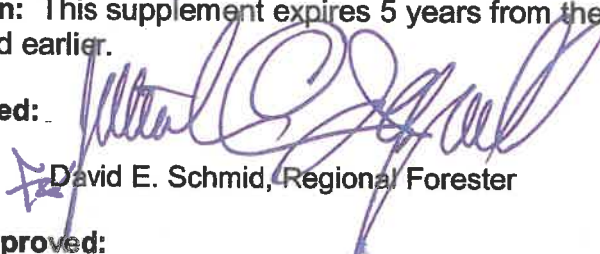

**Chapter 30 – Fee Determination**

**Supplement number:** R10 2709.11 – 2019 - 1

**Effective date:** 2/2/19

**Duration:** This supplement expires 5 years from the effective date unless superseded or removed earlier.

**Approved:**

  
David E. Schmid, Regional Forester

**Date approved:**

**Posting instructions:** Handbook supplements are numbered consecutively by Handbook number and calendar year. Post by document; remove the entire document and replace it with this supplement. Retain this transmittal as the first page(s) of this document.

Table 1. Superseded Document Information

Document	Document number	Number of pages
New		17
Superseded document by issuance number and effective date	R10 2709.11-2018-01, 12/22/2017	17

**Explanation of changes:** Following is an explanation of the changes throughout the document by section.

**Section 30:** Makes minor technical corrections throughout and updates fees with the Implicit Price Deflator – Gross Domestic Product (IPD-GDP) and Consumer Price Index – Urban (CPI-U), Indexes.

**Section 31.5:** Updates fee information.

**Section 37.21c:** Updates flat fee information. Adds information from the Federal Register and Alaska Administrative Code to clarify how to apply fees.

### **30.1 - Authority**

The authorized officer must determine and collect in advance an annual fee for special use authorizations, except as provided for by statute or regulations or when specifically authorized by the Secretary of Agriculture. See FSM 2701 and FSH 2709.11, section 30.1 of the parent text for statutory authorities, regulations, and provisions which govern the establishment and collection of fees.

## **31 – ESTABLISHING FEES**

### **31.03 - Policy**

Review fees periodically, such as when an authorization is re-issued or amended, or at set times within a long-term authorization. Adjust fees, following the terms and conditions of the authorization, or as established in the Alaska Region Land Use Fee Schedule.

### **31.4 - Documentation**

The Alaska Native Claims Settlement Act of 1971 (ANCSA), as amended, requires that proceeds from lands withdrawn for selection by an ANCSA corporation be deposited into an escrow account for payment to the corporation upon conveyance of the land. Similarly, the Alaska National Interest Lands Conservation Act (ANILCA) requires that 90% of the proceeds from lands selected by the State of Alaska be held for payment to the State upon conveyance of the land. Both requirements apply to special use authorizations, including permits, easements, and rights-of-way.

Check land status records and consult with the Alaska Lands Team to determine if the authorized area is on lands that have been withdrawn for selection by an ANCSA corporation or on lands that have been selected by the State of Alaska. If either situation applies, plan to deposit proceeds into an escrow account. Ask for assistance from Forest Budget staff. For additional information see the Region 10 Supplement FSH 6509.11k, Chapter 80 and the Region 10 supplement for FSH 5509.11, chapter 40.

### **31.5 - Fees Established by Field Units**

#### **31.51 - Fees Established by Regions**

##### **31.51a – Regional Minimum Fees**

The minimum annual fee for any special use authorization is \$114.89, unless otherwise specified in section 31.5, exhibit 01, or unless a higher established fee is stated in FSM 2721, FSH 2709.11, chapter 30, or elsewhere. When a higher minimum fee has been established, the higher fee shall prevail. Fees shown in section 31.5, exhibit 01 are comparable to the flat rates used by similar State, Federal or Private/Corporate land managers across the Alaska Region.

R10 SUPPLEMENT - R10 2709.11 – 2019 - 1  
Forest Service Handbook 2709.11 – Special Uses Handbook  
Chapter 30 – Fee Determination

Minimum fees are not eligible for partial payment procedures or proration. Minimum fees may be waived if the holder qualifies under waiver criteria in 36 CFR 251.57(b) and FSH 2709.11, section 31.

Fees in this Alaska Region Land Use Fee Schedule are annually adjusted by the Implicit Price Deflator-Gross Domestic Product (IDP-GDP) or the Consumer Price Index – Urban (CPI-U) to reflect current market values. Based on a market review conducted in 2009 and ongoing observation of subsequent transactions, the general market has been relatively static to moderately increasing for the past several years. The base year was established in CY2009 and reviewed in 2015.

Certain land use fees may be prorated. Determine land use fees beginning on the first day of the month following the effective date of the authorization through the last day of the month when the authorization terminates. For example, if an authorization became effective January 10 and terminated September 16, the rental period would be February 1 through September 30, or eight months. Minimum fees may not be prorated.

The authorized officer must apply the fee in the schedule to each use. Deviation from the specified fee requires that written rationale be submitted to the Director of Recreation, Lands, and Minerals. Upon receipt of the Regional staff comments, the authorized officer may exercise due discretion in establishing the fees.

The established fees reflect the market for rural, remote properties. These fees should be re-evaluated for properties in proximity to communities that have access to amenities such as electricity, water, and sewer. In such cases, the established fees are on the very low end of the scale.

See FSH 2709.11, section 36 for direction regarding specific fee systems and schedules.

When direction in FSM 2720 was released on April 15, 2011 (2700-2011-2) it duplicated R10 use code 512. To resolve this matter a new R10 use code was assigned for commercial fishing camp, it is 515.

 Chapter 30 – Fee Determination

Use Code	Use	<b>Definition</b> <b>** Implicit in all definitions are that these uses occur in remote settings.</b>	<b>Regional Minimum Fee or CY 2019 Fee</b>	<b>Instructions</b>
351	Residence, Privately-Owned Building	Issue only for existing privately-owned residences.	\$2,077.71	Do not authorize new uses (FSM 2723.51).
352	Residence, Government-Owned Building	The use and occupancy of all or part of Government structures when the building would otherwise be unused; when the occupancy would afford protection to the structure; and when the Government has no further need for a building not yet scheduled for disposal.	\$2,077.71	For new authorizations consult Forest Program Manager.
<b>360</b>	<b>Service Uses</b>			
362	Service Building	Other community service facilities, such as jails, police stations, firehouses, medical offices, and so forth.	\$3,501.76	For new authorizations consult Forest Program Manager.
366	Parking Lot		\$140.07	<2,000 sq. feet. If >2000 sq. feet and for all new uses consult Forest Program Manager.
<b>370</b>	<b>Encroachments</b>			
371	Cabin (invalid mining claim)	Arise through illegal use of buildings originally or ostensibly built for mining purposes under the 1872 Mining Law. Authorize use only as interim measure to resolve the encroachment and ensure that permits are of the shortest possible duration.	\$980.49	
374	Cabin Predating ANILCA	Cabins that were occupying National Forest System lands at the enactment of ANILCA but were not authorized under a special use permit.	\$980.49	No new uses should be authorized.
			\$266.11	Must qualify for reduced subsistence fee as described in R10 FSH 2709.11, section 36.8
<b>420</b>	<b>Research</b>	<b>Sites for a variety of studies, research, training, cultural resources.</b>		
421	Experimental and Demonstration	Temporary or permanent sites for monitoring or modifications to the area or a particular resource. Activities not related to Forest Service projects.	\$490.24	For 3 months. Minimum fee is 3 months.
			\$163.42	Each additional month. Maximum fee not to exceed 6-month fee.

Use Code	Use	<b>Definition</b> <b>** Implicit in all definitions are that these uses occur in remote settings.</b>	<b>Regional Minimum Fee or CY 2019 Fee</b>	<b>Instructions</b>
			\$980.49	For 6 months. Maximum fee not to exceed 6-month fee.
422	Research Study	Non-specific studies for a wide range of academic interests.	\$490.24	For 3 months. Minimum use is 3 months.
			\$163.42	Each additional month. Maximum fee not to exceed 6-month fee.
			\$980.49	For 6 months. Maximum fee not to exceed 6-month fee.
<b>430</b>	<b>Training</b>			
431	Military Training Area	Federal and State military training activities and sites.	\$3,501.76	Up to 2 acres. If > 2 acres and for new uses consult Forest Program Manager.
432	Education Center	Education facilities that are not physically part of a community school system.	\$2,077.71	Up to 2 acres. If > 2 acres and for new uses consult Forest Program Manager.
<b>500</b>	<b>Industry Camps</b>			
511	Construction Camps and Residences	Camps, cabins, or residences to house personnel employed in road, logging, and other industries. This designation also includes prisons camps.	\$3,501.76	Up to 2 acres. If > 2 acres and for new uses consult Forest Program Manager.
513	Commercial Fishing Cabin (or Warehouse)	Authorization pre-dates ANILCA and the authorized site and facilities are directly and necessarily related to commercial fishing. Permit holder must have Alaska limited entry permit.	\$980.49	
			\$266.11	Must qualify for reduced subsistence fee as described in R10 FSH 2709.11, section 36.8
514	Temporary Camps	Temporary camps, tent platforms for trapping, ADF&G, and other commercial uses.	\$490.24	Minimum fee for up to 3 months
			\$163.42	Each additional month. Maximum fee not to exceed 6-month fee.
			\$980.49	Per 6 months. Maximum fee not to exceed 6-month fee.

923	Water Diversion, Weir	Private residence or similar insignificant use.	\$114.89	For less than <1,000 sq. ft. If >1,000 sq. ft. and for new authorizations consult Forest Program Manager.
941	Stream Gauging Station	Non-navigable freshwater.	\$114.89	For less than <1,000 sq. ft. If >1,000 sq. ft. and for new authorizations consult Forest Program Manager.

## **32 - FEE ADMINISTRATION**

### **32.2 - Payment of Fees**

#### **32.21 - Consolidated Payment**

Advance payments save time and cost to the government and are encouraged to the extent possible.

The lump-sum fee is the annual fee for the type of use, multiplied by the duration of the authorization, up to 5 years. Do not index for future years.

## **33 – RECREATION RESIDENCE LOT FEES**

### **33.1 – Base Fees and Annual Adjustments**

Fees for recreation residence use (code 123) in the Alaska Region have been established by appraisal. Recreation residence fees are annually adjusted using the Implicit Price Deflator - Gross Domestic Product (IPD-GDP).

Land use fees for recreation residence use (code 123) in the Alaska Region are not subject to the fee schedule established by the Cabin Fee Act.

Do not use the recreation residence rent calculation in the Special Use Data System (SUDS).

## **36 - FEE SYSTEMS AND SCHEDULES**

### **36.2 - Communications Site Fee Schedule**

1. Use code 805 (Local Exchange Network) refers to radio service that provides basic telephone service, generally to rural communities. Local Exchange rates have been established and segregated by population strata.
2. The fee for use code 807 (Passive Reflector) is based on similar market fees on adjacent land ownerships. Use this fee for all passive reflectors, regardless of location.

### **36.4 - Linear Right-of-Way Fee Schedule**

For all National Forest System lands in Alaska, except for lands in the Municipality of Anchorage and Juneau voting districts 3 and 4, use the following fees.

<b>Area</b>	<b>Fee/Acre</b>
Alaska Region	\$67.29
Anchorage	\$188.50
Juneau, Voting Districts 3 and 4	\$1,431.71

### 36.8 – Subsistence Activities Fees

The Regional Forester established a fee for cabins and temporary facilities used for subsistence use activities. The reduced fee is based on subsistence use rather than market value. The fee is adjusted annually by the Implicit Price Deflator – Gross National Product (IDP-GNP). See the Alaska Land Use Fee Schedule, section 31.5, exhibit 01 for annual fee.

Only the following use codes qualify for the reduced fee:

- 116 – ANILCA Shelter
- 121 – Isolated Cabin
- 374 – Cabin Predating ANILCA
- 513 – Commercial Fishing Cabin (or Warehouse)
- 515 – Commercial Fishing Camp

The policy for the above listed use codes remains the same. Refer to FSM 2700, FSH 2709.11, and FSH 2709.14 for more information.

1. To qualify for the reduced fee the following criteria must be met:
  - a. The permit holder must be a federally qualified subsistence user. A federally qualified subsistence user is a rural Alaskan resident qualified to harvest fish or wildlife on Federal public lands in the location of the cabin or temporary facility in accordance with the Federal Subsistence Management Regulations. These regulations are found in 36 CFR Part 242 – Subsistence Management Regulations for Public Lands in Alaska.
  - b. The cabin or temporary facility must be used in support of subsistence harvesting of fish and wildlife as authorized in the regulations at 36 CFR Part 242.
  - c. If the site and facilities are also used for commercial fishing under an Alaska limited entry set-net fishing license, the holder cannot generate more than \$15,000 in gross annual income, averaged over the previous five years, from the fishery associated with the cabin or camp.
2. To receive the reduced fee, the permit holder must submit a notarized certification that the above conditions have been met. (See 36.8 Exhibit 01.) Eligibility for the reduced fee may be evaluated prior to permit expiration if warranted by changing conditions or new information. At minimum the holder's eligibility must be determined every five years or with the issuance of a new permit.
3. The following statement must be added to the face of the permit:

*“The holder of this permit is a federally qualified subsistence user who is receiving a reduced fee for the authorized use as certified in attachment [enter attachment number].”*

R10 SUPPLEMENT - R10 2709.11 – 2019 - 1  
Forest Service Handbook 2709.11 – Special Uses Handbook  
Chapter 30 – Fee Determination

4. To receive the reduced fee, the permit holder must submit the notarized certification (see section 36.8 Exhibit 01) that:
  - a. The permit holder is a rural Alaskan resident who is federally qualified to harvest fish and wildlife for subsistence use in the location of the cabin or temporary facility as defined in 36 CFR Part 242 – Subsistence Management Regulations for Public Lands in Alaska.
  - b. The cabin or temporary facility is used for subsistence harvesting of fish and wildlife as defined in the regulations in 36 CFR Part 242.
  - c. The permit holder’s income from commercial fishing under an Alaska limited entry set-net fishing license, for the same area as the authorized commercial cabin or temporary facilities, is \$15,000 or less per year, averaged over the previous five years.
  
5. For questionable submittals, the first attempt to resolve the certification issue will be through administrative procedures. Law enforcement action may be used after administrative procedures have not been successful.

**Section 36.8 – Exhibit 01**

**Certification for Cabin or Temporary Facility Used for Subsistence Use Activities**

I certify the following statements are true.

I am an Alaskan rural resident who is federally qualified to harvest fish and wildlife for subsistence use in the location of my cabin or temporary facility as defined in 36 CFR Part 242 – Subsistence Management Regulations for Public Lands in Alaska.

My cabin or temporary facility, authorization number [enter authorization number] is used for my subsistence harvesting of fish and wildlife as allowed for in the subsistence regulations.

For commercial fishing camp or commercial fishing cabin permit holders only:

I certify the following statement is true.

My gross annual income from commercial fishing under Alaska limited entry license no. [enter license number] for the same area as the authorized commercial cabin or temporary facilities is \$15,000 or less per year, averaged over the previous five years.

[Holder Signature]

[Name]

[Address]

[City, State Zip Code]

On [enter date], before me, a notary public in the State of [enter state], personally appeared [enter name of holder], known to me to be the person who signed this certification as the holder.

[Notary Signature]

Notary Public for the State of [enter state]

My commission expires [enter date].

## **37 - OUTFITTER AND GUIDE FEES**

### **37.2 - Commercial Services Not Associated with Public Service Site**

#### **37.21 - Fees**

##### **37.21a - Minimum Fee**

The minimum fee for outfitting and guiding on National Forest System lands in the Alaska Region is \$114.89.

##### **37.21b - Flat Fee for Temporary Use Permits**

4. In the Alaska Region, fees for temporary use will be determined under the Alaska Region's Flat Fee System. See section 37.21c, exhibit 01 of this supplement.

##### **37.21c - Fee for Commercial Use**

Flat fees for commercial outfitting and guiding uses in the Alaska Region are shown in section 37.21c, exhibit 01 of this supplement. Assess fees for any commercial use of National Forest System lands for outfitting and guiding, even if unauthorized.

For Outfitting Services, the parent text definitions in Forest Service Handbook (FSH) 2709.11 section 37.05 and FSH 2709.14 section 53.1e for calculating outfitting fees do not apply. Outfitting Services are assessed fees as specified in section 37.21c, exhibit 01 of this supplement.

For Hunting fees (except Wolf, Waterfowl, and Small Game), the following Federal Register direction applies (Vol. 73. No. 186, 9/24/2008, p. 55024):

Fees for hunts involving multiple species will be charged only for the species with the highest fee. For example, an outfitter and guide authorized to conduct hunts for both brown bear and deer will be charged a fee only for brown bear hunting when the hunt includes both species.

For the purposes of fee calculation, a "hunt" is defined by the hunt contract between the guide and the client as specified by Alaska Administrative Code (12 AAC 75.260).

For all outfitting and guiding activities, the following Federal Register direction applies (Vol. 73. No. 186, 9/24/2008, p. 55024):

When an outfitter or guide conducts more than one authorized activity on a given day, the Alaska Region charges the outfitter or guide only one fee, and that fee is whatever activity has the highest fee. For example, if an outfitter or guide conducts hiking and freshwater fishing, the fee will be the charge for freshwater fishing, since it is higher than the fee for hiking (which is included in general recreation).
