Subject: I support a ban on feral hog hunting in the Mark Twain National Forest

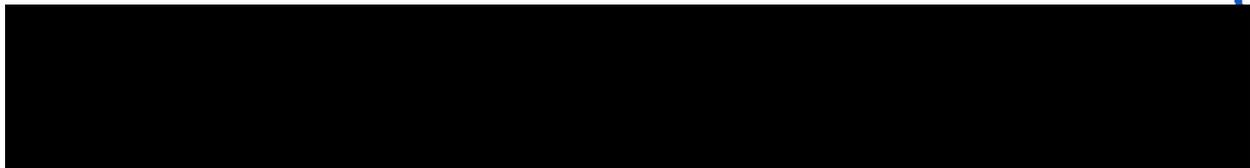

Dear Forest Supervisor,

I support a ban on feral hog hunting in the Mark Twain National Forest.

The elimination of feral hogs is an essential step in the conservation of our public lands and would ease the enormous financial burden this invasive species puts on Missouri farmers and other private landowners. Those involved in meeting this goal overwhelmingly support a ban on feral hog hunting. Enacting this ban in the Mark Twain National Forest is a very sensible action to take.

Sincerely,

11/10

Subject: Ban feral hog hunting in the Mark Twain National Forest

Dear Forest Supervisor,

Dear folks at U.S. Forest Service,

I support a ban on feral hog hunting in the Mark Twain National Forest. Feral hogs are a very destructive, non-native animal.

The elimination of feral hogs is an essential step in the conservation of our public lands and would ease the enormous financial burden this invasive species puts on Missouri farmers and other private landowners. Those involved in meeting this goal overwhelmingly support a ban on feral hog hunting. Enacting this ban in the Mark Twain National Forest is a very sensible action to take.

The Missouri Department of Conservation has the right idea in that you must eliminate the whole group- sounder of hogs- as dhooting an individual only scatters the sounder and they reproduce so quickly. Thank you, Kevin Minard

Sincerely,

[Redacted]

Subject: Ban feral hog hunting in the Mark Twain National Forest

Having personally experienced the damage feral hogs can do, I strongly support the ban on hunting them in the Mark Twain National Forest. They greatly damaged my year round spring, creek banks and also damaged pasture areas. This consumed my time and the time and resources for MO Dept. of Conservation personal in an attempt, by trapping, to remove the hogs from my area.

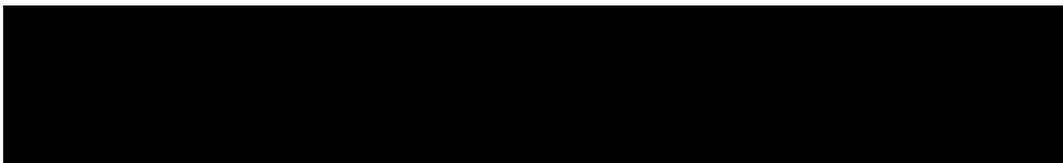

Eliminating feral hogs is essential to protect our public and private lands. Banning feral hog hunting in the Mark Twain National Forest is very important action to take in the effort to remove this invasive animal from our State.

Those who support hunting are a very small minor of MO residents. It seems to be clear that they care little about the natural areas of our State or for those people who make their livelihoods from agriculture. I have no established numbers, but I would ask this question. Why should 0.0005% of the people in this State have the right to damage the quality of life for the other 99.9995% citizens of Missouri?

The time is long overdue for those in charge of managing the Mark Twain Forest to take action to ban feral hog hunting. And then actively enforce that ban.

Thank you for taking the time to read my comments.

Dear Forest Supervisor,

We need a ban on feral hog hunting in the Mark Twain National Forest. Work to eliminate the non-native feral hogs there is hampered by having hunters involved.

In 2017, the U.S. Army Corps of Engineers, and the LAD Foundation established regulations against feral hog hunting on lands owned, leased, and managed by these entities.

We need the elimination of feral hogs to stop their destructive activities on our public lands and to ease the enormous financial burden this invasive species puts on Missouri farmers and other private landowners. Those involved in meeting this goal overwhelmingly support a ban on feral hog hunting. Enacting this ban in the Mark Twain National Forest would help.

Sincerely,

Subject: I support a ban on feral hog hunting in the Mark Twain National Forest

Dear Forest Supervisor,

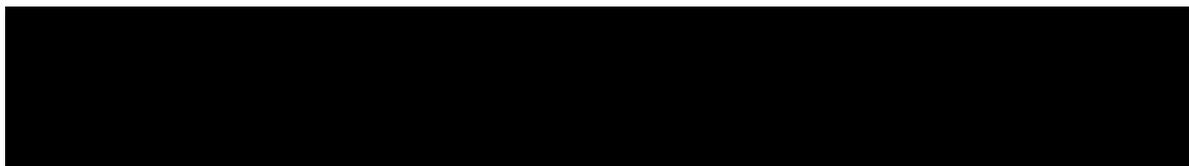

I support a ban on feral hog hunting in the Mark Twain National Forest.

The elimination of feral hogs is an essential step in the conservation of our public lands and would ease the enormous financial burden this invasive species puts on Missouri farmers and other private landowners. Those involved in meeting this goal overwhelmingly support a ban on feral hog hunting. Enacting this ban in the Mark Twain National Forest is a very sensible action to take.

Sincerely,

[REDACTED]

Subject: The a ban on feral hog hunting

Dear Forest Supervisor,

Missouri needs to eliminate feral hogs for reasons you're well aware of. I support a ban on feral hog hunting in the Mark Twain National Forest.

Missouri has a long history of conservation and a strong legacy of protection of natural lands. There is no question the hogs have to be removed. But please don't let control of these animals disintegrate into a willy-nilly, ad-hoc posse of gun-toting individuals when a concerted effort is what's required.

Thank you.

Sincerely,

Subject: I support a ban on feral hog hunting in the Mark Twain National Forest

Dear Forest Supervisor,

I support a ban on feral hog hunting in the Mark Twain National Forest.

The elimination of feral hogs is an essential step in the conservation of our public lands and would ease the enormous financial burden this invasive species puts on Missouri farmers and other private landowners. Those involved in meeting this goal overwhelmingly support a ban on feral hog hunting. Enacting this ban in the Mark Twain National Forest is a very sensible action to take.

Sincerely,

ase
