Lake Tahoe Basin Campground Prospectus Applicants

Dear Prospective Applicant:

In the spirit of assuring that the Lake Tahoe Basin Campground Prospectus best serves the public, the future concessionaire, and the Forest Service, we have taken the time to review our current offering. Given the delay associated with our review, I have decided to cancel the current campground prospectus application process. I anticipate offering a new prospectus in the Spring of 2020. We will once again expect to hold additional field visits, after we move forward with the new notice.

Several items are important for you to know moving forward:

- The current concessionaire has been granted a one-year extension to their existing permit. This permit will expire on December 31, 2020.
- You will be notified when the new prospectus application due date has been set.
- The successful applicant will begin the new permit on January 1, 2021.

We apologize for any inconvenience the delay may have caused you and appreciate your patience as we work towards the goal of offering a prospectus that will provide both high-quality recreation opportunities to the public and a rewarding business prospect to the successful applicant.

Sincerely,

  
JEFF MARSOLAIS  
Forest Supervisor
