

Fawn STEW Project 001 - Road Decommissioning: 4650 DE
Close Road 4650 DE between Unit 22 and the existing decompacted roadbed beyond Unit 22

Project Objective: reclose access to decommissioned road 4650 just beyond Fawn STEW Unit 22

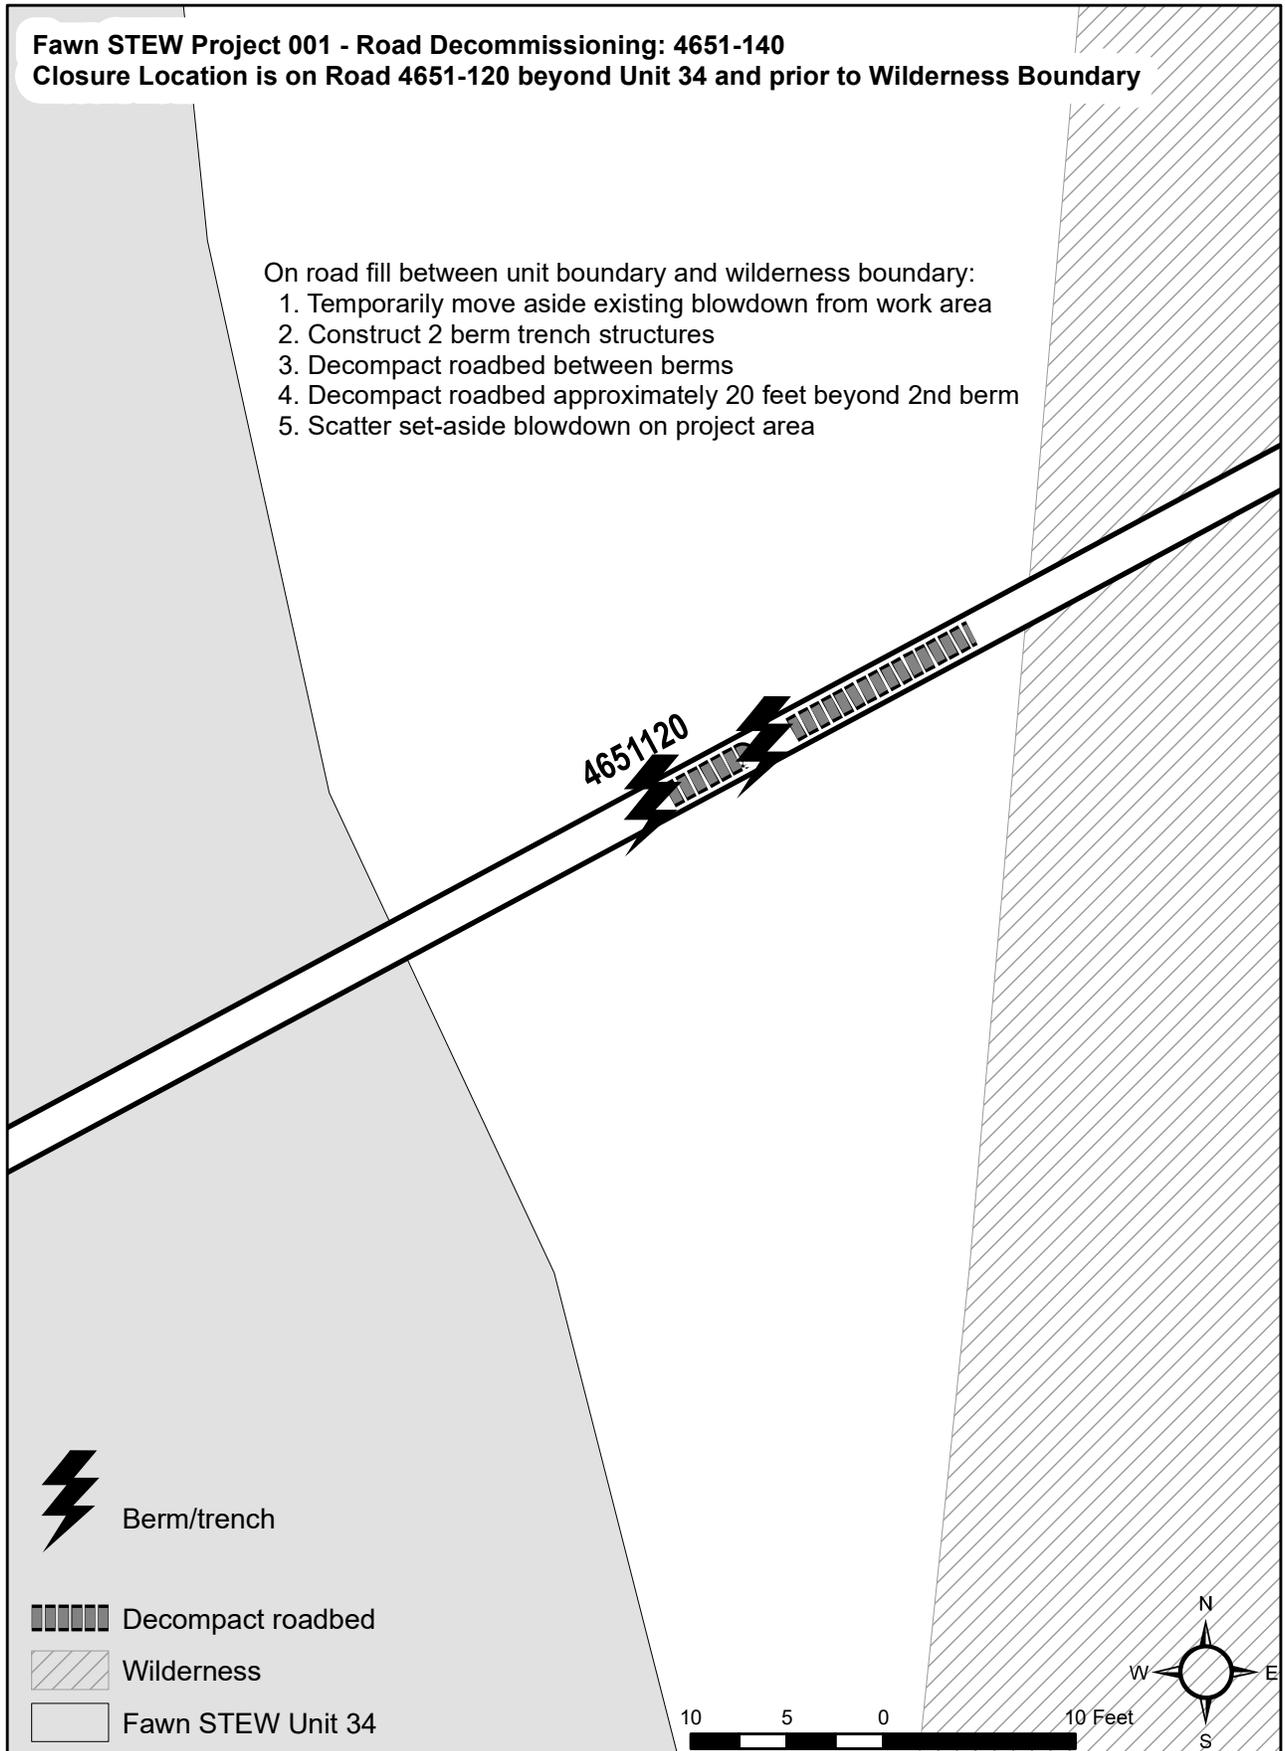

Closure project involves:

- 1. Construct 2 berm/trench structures beyond Unit 22
- 2. Decompact roadbed between berms
- 3. Scatter slash on berms, between berms, and beyond 2nd berm

Fawn STEW Project 001 - Road Decommissioning: 4651-140
Closure Location is on Road 4651-120 beyond Unit 34 and prior to Wilderness Boundary

- On road fill between unit boundary and wilderness boundary:
1. Temporarily move aside existing blowdown from work area
 2. Construct 2 berm trench structures
 3. Decompact roadbed between berms
 4. Decompact roadbed approximately 20 feet beyond 2nd berm
 5. Scatter set-aside blowdown on project area

Fawn STEW Project 001 - Road Decommissioning: 4651-150
Closure on Road 4651-150 between Unit 36 and Wilderness
