

# 2020 ANNUAL OPERATING INSTRUCTIONS

## Glenwood Ranger District

Gila National Forest

*Pleasanton Allotment #416*

**Prepared By:** /s/ DK Brown **Date:** 01/07/2020  
District Range Specialist

**Approved By:** /s/ Erick Stemmerman **Date:** 01/07/2020  
District Ranger

# Annual Operating Instructions

## I. INTRODUCTION

Kendall Brown (Forest Service) met with Russell Slaughter (permittee) on January 7, 2020 to discuss management of the Pleasanton Allotment during the current grazing year and to plan grazing management for the upcoming grazing season. These Annual Operating Instructions are the result of that discussion.

### Term Permitted Livestock Numbers:

Number & Class of livestock	Dates
500 Cow/Calf	03/01 – 02/28
12 Horses	03/01 – 02/28

\*The MOU from 2013 limits livestock to 250 head. Due to the amount of work done in 2018, per the MOU, the limit has been raised to 300.

### Authorized Use:

Number & Class of livestock	Dates
250 Cow/Calf	03/01 – 10/30
300 Cow/calf	11/01 – 02/28
12 saddle horses	03/01 – 02/28

### Pasture Rotations:

Class of Livestock	Rotation Date	Pasture
Cow/Calf	03/01 – 05/30	Powerline/Lloyd
Cow/Calf	06/01-08/30	Pine
Cow/Calf	09/01-02/28	Lightning Mesa
Cow/Calf	03/01 – 02/28	All other traps and holding pastures. *
Horses	03/01 – 02/28	Holliman/Shipping Traps

\* Livestock (holding) can remain in the pasture until allowable use is reached.

**Note: No livestock grazing is authorized in the San Francisco River.**

The above schedule for stocking the allotment depends upon the availability of forage and water. Some flexibility in the above pasture rotation dates will be allowed for justifiable causes such as weather conditions, livestock management needs, and range conditions. If there is a need to deviate from the above pasture rotation schedule by more than 15 days, you must notify the Ranger District of the proposed change in the pasture rotation date and the reason for the change. A deviation from the above schedule of more than 15 days must be approved verbally or in writing. Credit/Refund applications will not be processed unless District personnel have been notified either in advance or at the time of removal of stock.

## II. MANAGEMENT OF LIVESTOCK

You are responsible for monitoring water availability and forage utilization. It is your responsibility to move your livestock when sufficient water is no longer available or when proper forage utilization is achieved in a pasture. You are responsible for keeping

track of and maintaining control of your livestock. In the event your livestock are found to be out of the scheduled pasture, you will be required to find, gather, and return your animals to the proper pasture as soon as possible.

### **III. IMPROVEMENT MAINTENANCE**

All range improvements assigned in the 10-year Term Grazing Permit are to be maintained in a functioning condition. In the event these improvements cannot be brought up to a functioning condition, you should notify the Range Staff at the Glenwood Ranger District to schedule them for reconstruction as funds become available.

At this time the interior and exterior fences are in disrepair and the pipeline is non-functional. In 2013 we developed a Memorandum of Understanding, please refer to it for schedule of maintenance.

You may use Juniper for posts and stays for the maintenance of fences and corrals on your allotment.

Would like to clean: Steer/Pasture/Coyote Ridge/Goat Pen/Bull Grass/Hell's Hole/Powerline/N Side Pine/Citizen/Joe Day/Lloyd/Rim of River/Lightning Mesa/Ant/W Ant Tanks.

Need to repair several fences: About 5 miles of Goat Basin (040/601); About 4 miles of Hudson Holding trap (699/698) and others as needed.

Repair river Pipeline 4060 to Juniper Flat Cabin.

Repair Juniper Flat Cabin, Holliman Cabin, and Goat Basin Cabin and adjoining corrals.

### **IV. SPECIAL MANAGEMENT CONCERNS**

Keep track of conditions on your allotment and make plans to reduce or remove livestock if vegetative/watershed conditions could be substantially harmed due to continued grazing. Forage is good at this time but forage is limited. If dry conditions occur through the summer growing season, a reduction in herd size may be recommended. If the herd size is reduced, restocking of the allotment to full numbers will not take place until forage plants regain vigor.

Thank you for your attention to keeping cattle off the river. Please continue this effort to ensure that no cattle are within the river.

### **X. MODIFICATIONS**

If unforeseen operational conditions require a change in the management specified in this AOI please contact rangeland management personnel at the Glenwood Ranger District. Change requests should be made in advance so that field inspections (if necessary) can be conducted. Approval of changes to this AOI may be verbal or written, depending on the nature of the change requested. Verbal changes will be documented to your file for record keeping purposes. Failure to follow the direction provided in this AOI, or other instructions (verbal or written) of a Forest Officer may lead to adverse action against your Term Grazing Permit (Part 1, Section 3 of your Term Grazing Permit).

Open and positive communications concerning all AOI content is encouraged. Feel free to contact Kendall Brown if you have any questions or concerns.
