Assessment of Need and Enforcement Plan

1. Background:

The Forest Service is committed to the safety of all those who utilize their public lands. This section of trail crosses both federal and state lands traversing over hilltop prairie and descending into wooded draws. The landscape in this area is constantly changing due to the same natural processes that made the North Dakota badlands into what they are today.

2. Intent of Subpart B order:

The intent of the following order is to protect public safety by restricting access to this section of the Maah Daah Hey National Recreation Trail while we work with our specialists to identify a suitable route to circumvent the areas of concern.

3. Enforcement:

Enforcement of the closure order will be a combination of signing, public information, personal contacts and law enforcement actions. The following summarizes the enforcement goals with respect to this closure order:

- The goal will be to ensure that people are informed of the closure order. This will initially be promulgated through contacts and information releases before the special order goes into effect.
- LEO's & FPO's will endeavor to enforce the order through patrols and contacts when available to do so. Enforcement with a warning or citation will be at the discretion of the Law Enforcement Officer or Forest Protection Officer.

4: Posting:

Current posting will be modified to reflect the new prohibition. Posting will be completed by unit staff and field personnel will be posted at a minimum on the Dakota Prairie Grassland Alerts & Notices web page, the District office and signage in the immediate area of the closure.
