Mary Zimmerman/NFAB:Under new planning rule, how is sustainability determined? ...wondering about bridge period and development of new forest plan.

Alice Allen/NFAB:What is the timeline for the TSS WG?

Jerry Krueger/Black Hills NF:oops, reonsponses out on Friday the 17th

Mary Zimmerman/NFAB:At risk of being off-topic: can we have an update on the implementation of BHRL? The rate of progress on comercial harvests, thinning of young trees, and prescribed burns. If not today, perhaps at the May NFAB meeting?

Mary Zimmerman/NFAB:For that matter how about forest monitoring?

Ben Wudtke:My hand is up

Paul Pierson:I think I'm back

Ben Wudtke:Topics, yes. NFAB should operate autonomously to use data and assumptions of their choice, which may be informed by the FS.

Mary Zimmerman/NFAB:When will forest monitoring take place given that hasn't happened since 2014. It see

Dick Brown:Fully agree with Danielle

Mary Zimmerman/NFAB:seems difficult for the WG to discuss HSS without the monitoring on many items.

Paul Pierson:We can address the assumptions in the working group

Alice Allen/NFAB:At the end of the meeting I would like to know the current status of the motorized trails...open or closed at the moment??

Mary Zimmerman/NFAB:hand up here
