

ATTENTION HUNTERS CAMPER

A mechanical vegetation reduction project will be implemented in the Beaver Meadow area totaling 1,300 acres. The project area is located in Summit County, Utah, approximately 12 miles southeast of Lone Tree, Wyoming. Implementation will occur between July 19, and December 20, 2020.

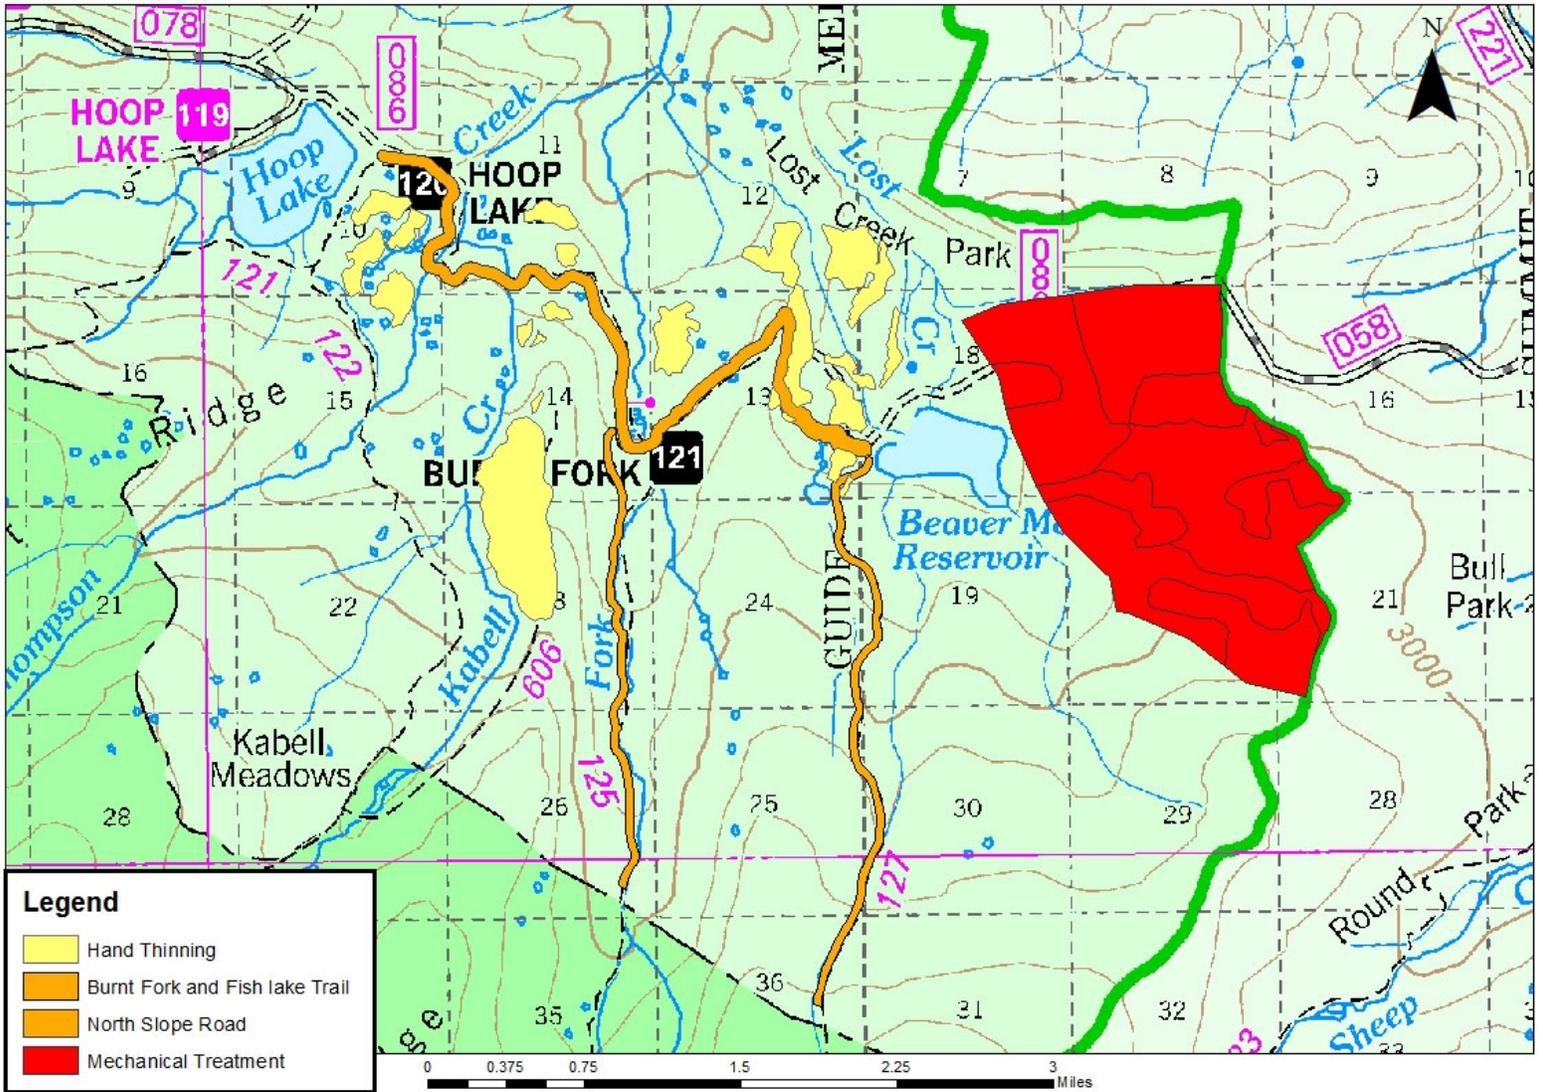

Goals are to regenerate aspen, improve wildlife habitat, reduce hazardous fuels, and improve forest and watershed health.

Please refer to the map of the project area. For more information contact:
