

Olympic Peninsula Resource Advisory Committee Title II Project Proposal - Supplement

Please fill out this supplemental form and submit it along with the Title II Project Submission Form (proposal) by October 16, 2020 to susan.garner@usda.gov.

Project Name: _____

Project Sponsor: _____

Phone Number/E-mail: _____

This supplemental information will inform the Olympic National Forest about the scope and scale of the proposed project, and help the Forest determine if it has the workforce capacity to assist with tasks such as completing regulatory requirements (such as NEPA) or be involved with project implementation. The agency will also review proposals to determine if it meets agency applicable laws, regulations and management policy. If the proposal is beyond the capability of the Forest to complete required compliance documentation or administration, or the project does not meet agency direction, the project sponsor will be contacted by the Forest Title II Coordinator or the District Ranger to discuss options to update the proposal if possible.

To assist you with questions during project development and its feasibility to implement in a reasonable timeframe, the Forest has four staff available with the technical expertise to assist you. Please contact them if you have any questions.

- Title II Program Coordination – Susan Garner, 360-956-2390, susan.garner@usda.gov
- Engineering/Roads – John La Liberte, 360-765-2224, john.laliberte@usda.gov
- Recreation – Nicole LaGioia, 360-765-2227, nicole.lagioia@usda.gov
- Natural Resources (forestry, fisheries, wildlife, botanical, watershed) – Dana Butler, 719-321-4555, dana.butler@usda.gov

Please answer each question below:

1. If your project is awarded Title II funding, what is the timeline of the project (start, implementation, completion)?

2. If you are a non-Forest Service applicant, have you worked with Olympic National Forest staff in the development or design of the project? Who is the staff member? Will Olympic NF be involved in implementation?

3. Does the project have a signed NEPA document? If not, how would you contribute to completing the required NEPA before implementation?

4. Is an agreement or contract needed to implement the project? What type, and if current document what is the name/number?

5. Can this project be implemented with less than the requested amount? And if yes, by how much and what would not be accomplished with reduced funding (*for example – \$30,000 (full funding) would result in 50 miles of road maintenance; 50% funding would result in 25 miles of road maintenance*).

6. How will the requested Title II funding leverage other sources of funding or in-kind contributions?
