NON-FIRE FIELD & OFFICE TEMPORARY POSITIONS

**SUBMIT APPLICATIONS
DECEMBER 1 - 11, 2020**

****ABOUT THE FOREST****

The Arapaho and Roosevelt National Forests are located in north central Colorado. Together the forests and the Pawnee National Grassland encompass 1.5 million acres extending north to the Wyoming border, south of Interstate 70 to Mount Evans, west across the Continental Divide to Granby and Grand Lake and includes short grass prairie east of I-25. The Forest is head quartered in Fort Collins with district offices in Boulder, Fort Collins, Idaho Springs, Granby and Ault. The forest neighbors Colorado's growing Front Range, including the greater Denver area and Rocky Mountain National Park.

*****THE DUTY STATIONS*****

Idaho Springs is headquarters to the Clear Creek Ranger District. Spanning the I-70 corridor from the Front Range foothills to the Continental Divide, the area is steeped in Colorado's mining legacy and is speckled with historic sites and small towns with quaint main streets. Clear Creek runs through the district, from its source in the district's 14,000-foot summits near Georgetown to the mouth of the canyon in Golden. Home to fewer than 2,000 residents, Idaho Springs is treasured for its proximity to white water boating opportunities in the summer and Loveland Ski Area in the winter. Its main street bustles with souvenir shops, museums, and restaurants while its convenient location along the I-70 corridor make it an ideal launching point for outdoor recreation adventures in the mountains or a cultural trip into Denver.

Boulder is located at the base of the foothills of the Rocky Mountains about 25 miles northwest of Denver. The City of Boulder sits 5,430 feet above sea level and experiences an average of 300 days of sunshine a year and moderate weather. Outdoor recreation opportunities in and around Boulder are extensive, with city and county parks and open space, trails, Rocky Mountain National Park and, of course, lots of national forest. Entertainment opportunities abound in Boulder and the metropolitan area, with a wide array of restaurants, theater, world-class museums, and sports-and-music venues. There are many institutions of higher learning in the area, including the University of Colorado Boulder and the Boulder Valley School District, which ranks among the state's best districts.

Fort Collins is located 60 minutes north of Denver near the Wyoming state line. Home to Colorado State University, Fort Collins is a vibrant city full of local eateries, boutiques and recreational opportunities. The Canyon Lakes Ranger District earns its name from the hundreds of mountain lakes and river canyons that run through its 600,000-acre expanse along the gateway to Rocky Mountain National Park. The Cache la Poudre River – Colorado's only nationally designated Wild and Scenic River – tumbles from its origins in the Continental Divide through a stunning canyon with majestic cliffs and intriguing rock formations down the slopes of the Front Range into the city of Fort Collins. For the recreation enthusiast, there are year-round opportunities here, from whitewater rafting, hiking, biking, camping, kayaking, and fishing, to winter sports like snowshoeing, cross country skiing and snowmobiling,

Granby is situated along the upper Colorado and Fraser rivers on the west side of the Continental Divide. Only 67 miles from Denver, Grand County is the ideal combination of authentic western adventure and unrivaled natural beauty. The ranger district is home to Colorado's "Great Lakes" region, including seven lakes popular for boating and fishing; Winter Park Resort; and the mountain-biking capital of Colorado. The nearby town of Grand Lake serves as the western gateway to Rocky Mountain National Park. In addition to world-class skiing, Grand County offers horseback riding, mountain biking, hiking, rafting, fishing, boating, snowshoeing and a host of other unique Colorado activities. Grand County and its communities, including Kremmling, Granby, Winter Park/Fraser, Grand Lake, and Hot Sulphur Springs, are surrounded by snow-capped peaks, forested mountains and rolling ranch lands.

Ault is headquarters and the gateway to the Pawnee National Grassland. Ault - "A Unique Little Town", is well known for its antique shops, Fall Festival and International Food Fest. Ault provides a friendly, country feel with beauty in the tree lined streets and well-maintained parks. Multiple antique stores and restaurants line the main street in town. Ault has several different churches, a senior center, library, small shops and a variety of services.

2021 SUMMER SEASON POSITIONS
ARAPAHO AND ROOSEVELT NATIONAL FORESTS and PAWNEE NATIONAL GRASSLAND

FISHERIES AND WILDLIFE – APPLY DEC. 01-11

Assist in the recovery of cutthroat trout in Northern Colorado. Working across 4 different mountain districts, technicians participate in electrofishing surveys, genetic tissue sampling, eDNA sampling, tagging of non-native fish, monitoring of remote antenna array, hydrological flow modeling, and organizing logistics for long, arduous days in the field with partners and crews. Wildlife technicians help with field surveys during project planning and implementation as well as species monitoring.
