

Instructions for downloading SFNF Motor Vehicle Use Maps on Android Devices

<p>Install the Avenza PDF Maps App on your device from the Play Store</p>	
<p>Once you have installed Avenza go to the SFNF Travel Management webpage and download the pdf versions of the maps from the Travel Aid page. You can also find them in the Avenza Map Store (search on MVUM) and they are FREE to use (Avenza should be free for 3 maps).</p>	<p>http://www.fs.usda.gov/detail/santafe/landmanagement/projects/?cid=stelprdb5412097</p>
<p>Once you have downloaded the maps, click on them and your phone will ask you what application you want to open it with select PDF-Maps. Once the maps are processed, they will be available to use when you are out in the Forest and out of cell or WiFi range, and show your live location on the map.</p>
