### INFORMATION SOURCES

**Motor Vehicle Use Map (MVUM)**

This motor vehicle use map identifies those roads, trails, and areas on National Forest System lands that are open to motorized use. It is intended for use by motorists in determining which roads and trails are open to the public, the restrictions that apply on those routes and in those areas, and the seasons during which roads and trails are open.

Seasonal restrictions apply on some roads and trails. A designated road is passable only by high-clearance vehicles or four-wheel-drive vehicles. Road signs notify the public of seasonal or permanent restrictions.

### OPERATIONS RESPONSIBILITIES

The U.S. Forest Service manages the National Forest System lands for the public. As the principal Federal land manager, the Service works to ensure that the public lands provide a wide range of benefits that meet the social and economic needs of the American people.

### EXPLANATION OF LEGEND ITEMS

- **Designated Roads**: These are roads designated for motor vehicle use on National Forest System lands.
- **Seasonal Designation**: All routes with a seasonal designation are open from April 1st through November 1st.
- **Dispersed Camping**: Motor vehicle use of designated roads and/or trails for the purpose of dispersed camping is permitted for up to 150 feet from the centerline of all roads and/or trails from the period of May 1st to December 31st.

For more information, please visit the website of the USDA or contact the appropriate agency.
