- 59 miles from Gardiner on Hwy 212, about two hours
- Basic camping facilities, $20 fee
- 18 campsites
- Hosted
- Potable water
- Not suitable for vehicle 48’ combined length
- HARD SIDE CAMPING ONLY

Dispersed camping is the term used for camping in the National Forest OUTSIDE of a designated campground. It also means no services (such as trash removal), and little or no facilities (such as tables, fire pits or toilets) are provided.

WHAT IS DISPERSED CAMPING?
Many people enjoy the solitude and primitive experience of camping away from developed campgrounds and other campers. Dispersed camping is the term used for camping in the National Forest OUTSIDE of a designated campground. It also means no services (such as trash removal), and little or no facilities (such as tables, fire pits or toilets) are provided.

RULES FOR DISPERSED CAMPING:
- THIS IS BEAR COUNTRY! Be bear aware and know food storage regulations before camping. These regulations are strictly enforced. This means everything locked in an enclosed, hard-sided vehicle with all the windows up or stored in an approved bear-resistant container that is locked, bolted or secured according to manufacturer recommendations.
- THERE ARE RESTRICTED AREAS. Dispersed camping is NOT allowed in the vicinity of developed recreation areas, trailheads, fishing access sites or developed campgrounds.
- CAMPING IS ALLOWED up to 300 feet from the road.
- CAMP IN AN ESTABLISHED SITE. To reduce negative impact on USFS lands, please choose a site that’s already been used for dispersed camping; avoid making a new one. Please use existing fire rings and avoid creating new ones.
- DROWN YOUR FIRE. It is your responsibility to know if fire restrictions are in effect before you go camping; contact your local district office for information on fire restrictions.
- PACK IT IN, PACK IT OUT! You need to be self-contained. Please pack out all your trash.
- 16 DAY LIMIT. You may camp in a dispersed area for up to 16 days. After 16 days, you must move at least 5 air miles to camp in another dispersed area and you cannot return to your original campsite for 7 days.

WHERE CAN I DISPERSE CAMP?
To find out where you are allowed to disperse camp, please refer to each district’s Motor Vehicle Use Map (MVUM). These maps will show which roadways allow dispersed camping and the distance you are allowed to drive off the road to camp. Please note that some roads have more limitations and restrictions than others. Please consult the Motor Vehicle Use Maps found at https://www.fs.usda.gov/custergallatin or contact the Gardiner District Office at (406) 848-7375 ext. 20 for more details.

CAN I HAVE A CAMPFIRE?
If possible, please use existing sites and fire rings. Firewood permits are not needed if wood is used on the forest. Dead wood can be collected and burned onsite. If you bring your own firewood, it must be from a local source. Wood from other areas may have diseases or bugs that are non-native and can harm local forests. If wood is transported home for personal use, you will need to purchase a firewood permit at the closest district office. This permit should be obtained prior to you gathering or transporting any wood. Also, do not burn garbage; pack it out.

Before you leave your campfire make sure it is completely out. You should be able to put your whole hand into the ashes without being burned; it should be cool to the touch. Soak the ashes to make sure all embers have cooled. This is very important! Many forest fires are caused by abandoned campfires that were not completely out.

The National Forest has wildfires each year. Many of these are human caused from escaped campfires in dispersed sites. Campfires are allowed unless there are fire restrictions in effect due to high fire danger conditions. It is your responsibility to know if there are restrictions in effect before you go camping. You can learn about any fire restrictions by contacting the nearest Forest Service office.

CAN I GO TO THE BATHROOM AT DISPERSED SITES?
Dispersed camping means no bathrooms and no outhouses. That means extra care must be taken in disposing of human waste. If you have a self-contained unit such as an RV, it is preferred that you use your own facilities. If you do not have an RV, you must dispose of feces, dig a hole 6-8 inches deep at least 200 feet away from any water source. When you are done, fill the hole with the dirt you dug up and take your toilet paper with you to dispose of in a proper waste container. Never defecate or leave toilet paper on top of the ground. Do not simply cover it with a rock; it could easily get into the local water source and contaminate it.
Camping allowed past the 3 Mile marker.

Gardiner Area Dispersed Camping

Bears can be anywhere, assume their presence.

Dispersed Camping Tips

- Dots shown next to roads indicate dispersed camp sites.
- Dispersed camping is not allowed on roads shown in red or private property (white areas on maps.)
- Dispersed camping is allowed up to 300ft from the road.
- Look for signs of flattened grasses, possibly a fire ring or evidence of vehicles parking just off the road.
- There are two sites on the Jardine Road that are located just 3.8 and 4.2 miles from Gardiner, past Eagle Creek Campground.
- Once in Jardine, look for a sign with multiple roads and Timber Camp and Bear Creek campgrounds listed. At that sign, turn right to cross over the creek and continue up Bear Creek Rd.
- Pack out your garbage; never burn or bury it.
- Properly store all cooking items, even when clean.
- Coolers may attract bears even when empty. Only bear-resistant certified coolers that are properly locked may be left unattended.
- Never bring odorous items such as food, cosmetics and toiletries into your tent.
- Make sure your sleeping clothes and hands are free of food smells.
- Locate your tent at least 300 feet away from your cooking area.
- Bring a flashlight and bear spray into your tent at night.
- Know how to use your bear spray.
- If a bear tries to enter your tent, fight back!

Cooke City Area Dispersed Camping

Properly stored means:
- Stored in an approved bear-resistant container that is locked, bolted or secured according to manufacturer recommendations.
- Locked in an enclosed hard-sided vehicle with all the windows up.

To increase human safety and protect bears, all unattended food, refuse and other bear attractants must be properly stored and unavailable to wildlife.

This is Bear Country! Special Rules Apply

Pack out your garbage; never burn or bury it.
- Properly store all cooking items, even when clean.
- Coolers may attract bears even when empty. Only bear-resistant certified coolers that are properly locked may be left unattended.
- Never bring odorous items such as food, cosmetics and toiletries into your tent.
- Make sure your sleeping clothes and hands are free of food smells.
- Locate your tent at least 300 feet away from your cooking area.
- Bring a flashlight and bear spray into your tent at night.
- Know how to use your bear spray.
- If a bear tries to enter your tent, fight back!
