

Inventory of Government-Furnished Property

The Federal Government owns the improvements within all the developed recreation sites. Included in the following inventory are the description, quantity, and the estimated replacement cost of the applicable property.

Please note that it is the policy of the Forest Service (FSM 2330.5) to provide universally designed recreation sites, facilities and constructed features through the use of designs that accommodate most people, including people with disabilities, while maintaining the setting. For example, all picnic tables, fire rings, toilets structures, etc., that are purchased or constructed, are now to be accessible, so that any person can use those facilities, wherever they are located. Replacement costs use the cost of accessible items where applicable.

Table 1. Inventory of Government-Furnished Property

Site Name	Item	Type	Quantity	Replacement Cost (each)	Total	Remarks
<i>Groveland Ranger District</i>						
Dimond O Campground	BARRIER	ASPHALT CURB	264 ft.	\$7,471	\$7,471
