Errata #2, Bald Mountain Campground Site Description Update

Prospectus for Campground and Related Granger-Thye Concessions, Bighorn National Forest Section C. Description of Developed Recreation Sites and Facilities, Bald Mountain Campground

Change Section C. Description of Developed Recreation Sites and Facilities, Bald Mountain Campground to read:

Bald Mountain Campground

Bald Mountain Campground is located 33 miles east of Lovell, Wyoming. Visitors can access the campground from Lovell by traveling east on US Highway 14 for 33 miles before turning right at the campground sign. The campground is set in a wooded area surrounded by open meadows. It is well known for its scenic natural beauty, particularly its wildflowers. There are various hiking opportunities and the Medicine Wheel National Historic Landmark is also nearby. There are 15 single family sites. Each site has a picnic table and campfire ring with a grill. The campground has two accessible vault toilets, drinking water, and trash collection service. The nearest dump station is 25 miles east at Burgess Junction. At a minimum the Forest Service expects the concessionaire to operate the campground Memorial Day Weekend through Labor Day Weekend. The applicant may propose to operate outside of this minimum with the understanding that unpredictable weather impact may require modification of these dates.

Future Project: A Forest project in partnership with Back Country Horsemen is to add four horse campsites to the Bald Mountain campground with a target completion date of 2024, although date could be moved up if funding becomes available. These horse campsites will include a configuration of a four-contiguous stall corral system. A separate loop with connecting road would tie this new division to the existing campground facilities. The sites would become part of the concession permit upon completion and responsibility for maintaining and cleaning the corrals would be assigned to the concessionaire as part of the permit. Please refer to the Bald Mountain Horse Camping Layout and Corral Plans files.
